JUMBO EVERBLOOMING HYBRID TEA ROSES

3-Year-old Bushes - Will Bloom this Year - Pruned Ready to Plant

5 VARIETIES OF DISTINCTION

These modern beauties are the world's prizes. Regardless of where you live you can successfully grow the following varieties in your own garden. They begin blooming immediately after planted. Every bush is a first grade, 3-year old, field-grown bush. Each variety is noted for vivid coloring, lasting fragrance, hardy, vigorous growth and continuous bloom all summer. Complete instructions on how to grow roses will be attached to each shipment free.

AUTUMN Large, fragrant flowers of fiery copper-red inside and rich yellow outside. Strong, healthy, vigorous grower and free bloomer. Each 98c.

BETTER TIMES Glorious red color; prized for its long stems and pointed buds. Magnificent large blooms with texture like shimmering satin. Very hardy. Each 98c.

GOLDEN PERNET A grand rose of unfading, clear yellow. Strong growing and free-blooming, it has made good all over America. Each 98c.

ROSE MARIE The buds are long and pointed, petals large and well-rounded. Color is a delightful pure, rose-pink. Each 98c.

WHITE SUPREME A rose superb in every way. Ideal hardy white; pure in color, perfect in form, strong growing and free flowering. Each 98c.

ROSES Are The Garden Aristocrats

Floribundas Add Charm To Any Home • BLOOM ALL SUMMER—HARDY

Floradora

This remarkable new race of Roses will give you a mass of color from early summer to frost. They bloom in clusters on low bushes with good foliage. Disease-resistant and hardy. Easy to grow. Just the thing for mass display. Use for floral displays and table arrangements. Plant 15 to 18 inches apart.

No. 75. FLORADORA—A gay eye-catching Floribunda. The color is something entirely new in Roses, a spectacular geranium-red that is arresting even under artificial light. Double flowers, freely produced all summer long. An all-America selection.

No. 76. ORANGE TRIUMPH—A favorite variety because of its continuous blooming habit. The buds, which are yellow and orange-red, break into large, light flesh-pink and salmon-yellow flowers that have a slight fragrance, and bear a strong resemblance to Hybrid Tea Roses.

No. 77. ELSE POULSEN—This magnificent hardy rose produces its clusters of bright rose-pink flowers from spring till frost. Exceptionally fine as a hedge, border or solid bed.

No. 78. RED LAFAYETTE—A brilliant flaming red. Stands dryness better than any other rose. Fine for cut flowers. Long, pointed buds; wide spreading flowers.

No. 79. IDEAL—This Rose will give you a great mass of dark scarlet flowers with almost black shadings. The blooms are double, of medium size, and borne in enormous quantities in compact trusses the entire season.

No. 80. GOLDEN SALMON—When in full flower, this variety makes a gorgeous show, with a multitude of blazing orange blooms, and scores of orange-scarlet buds. The combination makes a glowing mass of color in borders and massed plantings.

No. 81. ROSE ELFE—A vigorous and continuous bloomer. Beautiful gardenia-like, double flowers of silvery rose-pink. True miniatures of the larger hybrid tea roses.

No. 82. SPARKLER—A sparkling red, which bears immense quantities of very large, graceful, semi-double blooms. Useful for mass effects in beds or in hedges. A sturdy and disease-resistant plant.

Sparkler

Choice 3-Year-Old EVERBLOOMING CLIMBING ROSES

PRICE: 3-Yr.-Old, No. 1 Bushes, Your Choice, \$1.25 Each

The following varieties represent the highest perfection yet attained in Roses. Each variety offered is hardy enough for the extreme north. All have been given most rigid tests.

No. 90. BLAZE—The everblooming Paul's Scarlet. A brilliant flag-red, everblooming variety; an eye catching, double, climbing Rose. The display is especially generous in June and each succeeding year will increase your admiration.

White American Beauty

Blaze

No. 91. CLIMBING MRS. P. S. DUPONT—For those who love the yellow large-flowering Climbers, here's one of the best. Reddish gold buds open rich golden yellow.

No. 92. NEW DAWN—The best Ever-blooming Climber ever produced, with 12 to 15 strong canes per plant. Sparkling rich green leaves and covered with great masses of fragrant, long-stemmed, blush-pink flowers in June, which are excellent for cutting. Repeats freely until frost.

No. 93. WHITE AMERICAN BEAUTY—A leading white rose because of the beautifully formed, pure ivory-white buds and the magnificent, high-centered, fully double flowers that are produced so continuously, no matter what the weather, until frost.

THANKS A MILLION

Again we wish to express our most sincere thanks and appreciation to all our customers whom we have tried so hard to please through the many years past. We especially thank our friends who have been so kind as to recommend our concern to their friends and neighbors. We highly appreciate the fine letters we have received from our many satisfied customers. We feel we have succeeded in pleasing our fine customers these many years and hope we may continue to do so in the future.

BRADLEY'S STOCK STATE INSPECTED

No diseased trees, plants or shrubs are shipped from Bradley Brothers. All the stock we ship has been inspected very thoroughly by authorized Station Inspectors and their approval will be shown on the copy of our Certificate, signed by our Horticultural Inspection Supervisor. Every package is accompanied by our Certificate.

WHEN TO ORDER

If convenient, place your order as soon as you receive our Catalogue. It is to your advantage to order early, to be sure of getting the items you want. The stock you order will be reserved for you until the proper time to plant in your neighborhood. We try to keep informed on weather conditions in every section of the United States during the shipping season—from February to late May.

TERMS

If your order amounts to \$5.00 or more and it is not convenient to send full cash now, send one-fourth cash with order and balance 10 days before shipment. Postage, express or freight will be prepaid on all orders of \$5.00 or more. Add 10 percent for packing and postage on all orders for less than \$5.00.

FREE DELIVERY ON ORDERS FOR \$5.00 OR MORE

A COMPLETE LINE OF FIRST QUALITY FRUIT TREES • FRUIT PLANTS • SHRUBS • ROSES

At Values That

Only Many Years of Experience Can Provide

THE success of any settlement invariably starts from the products of the soil. Growing of fruits, vegetables and flowers will always be foremost and of the greatest importance because the growing of such products makes possible the basic necessities of life and food. Also for health, comfort, happiness and contentment.

At no time in the history of our Country has there been a period when homes and fruits were more sought after than at the present. Start to plant your home now. We offer plants, shrubs and fruit trees that are grown in the best parts of our Country for their best development by Nurserymen of long experience. Only the best and proven methods of culture are used. We sell only first quality Nursery Stock. Bradley Brothers is an old established concern, able to supply you with first quality Nursery Stock at reasonable prices. We solicit your orders on this basis.

A View of Our Packing House and a few of the Folks who are glad to serve You

BRADLEY'S GUARANTEE

No. 1 We guarantee the stock to be true to name. If it proves otherwise, we will replace it free or refund the amount you paid for it.

No. 2 We guarantee the stock to be first quality and to reach you in good, live growing condition. Examine the items carefully upon arrival and if you are not satisfied, return the unsatisfactory items at once and we will replace them free or return your money.

No. 3 The stock we sell is very carefully handled and under ordinary conditions should grow for you. However, if it does not grow, owing to the weather or other conditions over which we have no control, we will replace it at half price the following season. You are to notify us not later than July 1, 1951.

Bradley's policy is a generous one. We want you to be satisfied.

**WE CANNOT ACCEPT
ORDERS FOR LESS
THAN \$1.00**

NOTE BEFORE ORDERING ANY FRUIT TREES:

We do not ship ANY Fruit Trees into the following States: California, Washington, Oregon, Montana, Utah, Arizona and Wyoming.

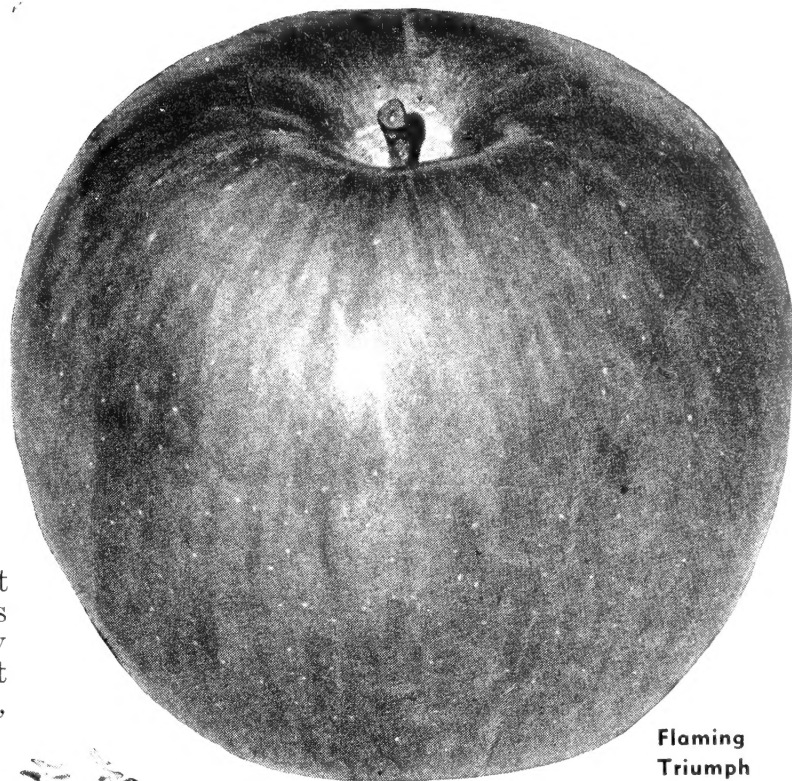

Two Young Bearing
Fine Flavored and
Most Delicious

APPLES

No. 100

FLAMING TRIUMPH

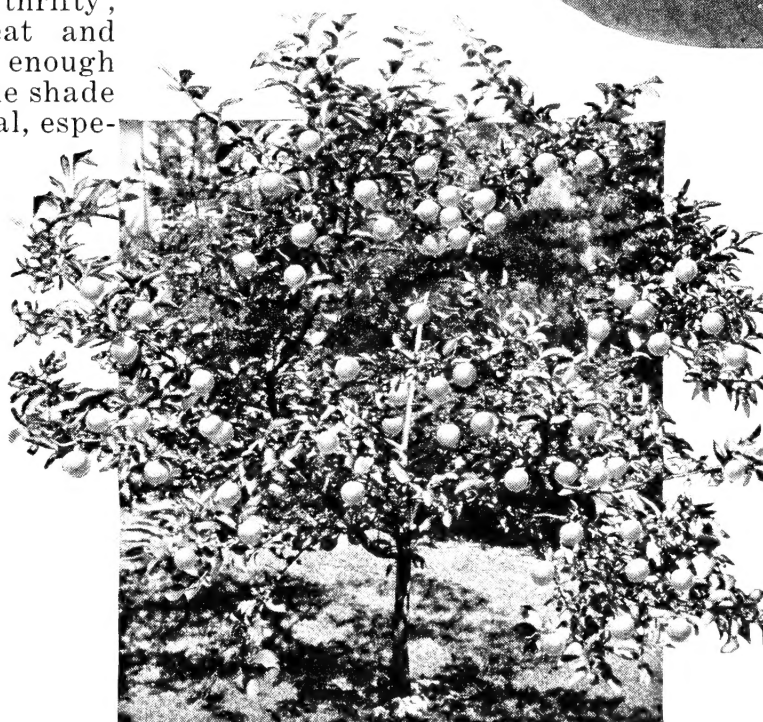

Bears young and we consider it as one of the finest Apples on the market. Ripens in Fall and keeps longer than most other varieties. Has a rich, spicy flavor and its tender, crisp flesh makes it all that could be desired in a fancy, long-keeping, huge, solid red Apple. Trees thrifty; they will withstand heat and drought and are hardy enough for the North. Makes a fine shade tree and is very ornamental, especially when covered with blossoms and when loaded with huge, solid red Apples.

Flaming
Triumph

TREES BEAR YOUNG

Some varieties of Apple Trees bear young. Pictured at the left is a young Apple Tree with an abundant crop of apples. It has been our aim to select, wherever possible, varieties that will produce early. This means earlier profits and less work. It means fruit on the table sooner for those who plant for home consumption.

SPECIAL BARGAIN No. 105

- 1 Flaming Triumph
- 1 Anoka
- 1 Double Red Delicious
- 1 Golden Sweet
- 1 Yellow Delicious

6-7 Ft. TREES

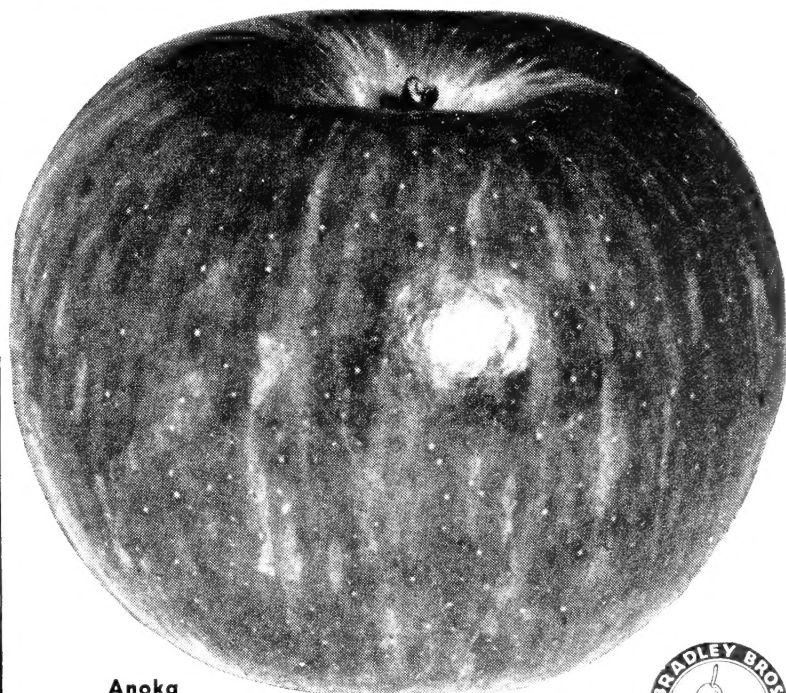

\$6.95 Value for only **\$5.86**

No. 102 Anoka

No. 102. ANOKA—A wonderful early Apple. Trees bear while extremely young. No long waiting for fruit when you plant Anoka. A grand variety for old folks. Originated in South Dakota. Originator claims trees often bear fruit the second year. Hardy enough for extreme North. A fine eating Apple; makes delicious pies and fine flavored sauce. Trees dwarfish in habit and very productive. A grand variety for folks with small yards as they may be planted 12 feet apart. Old folks can plant Anoka Apple Trees and often see them bear for several years.

Double Red
Delicious

No. 104

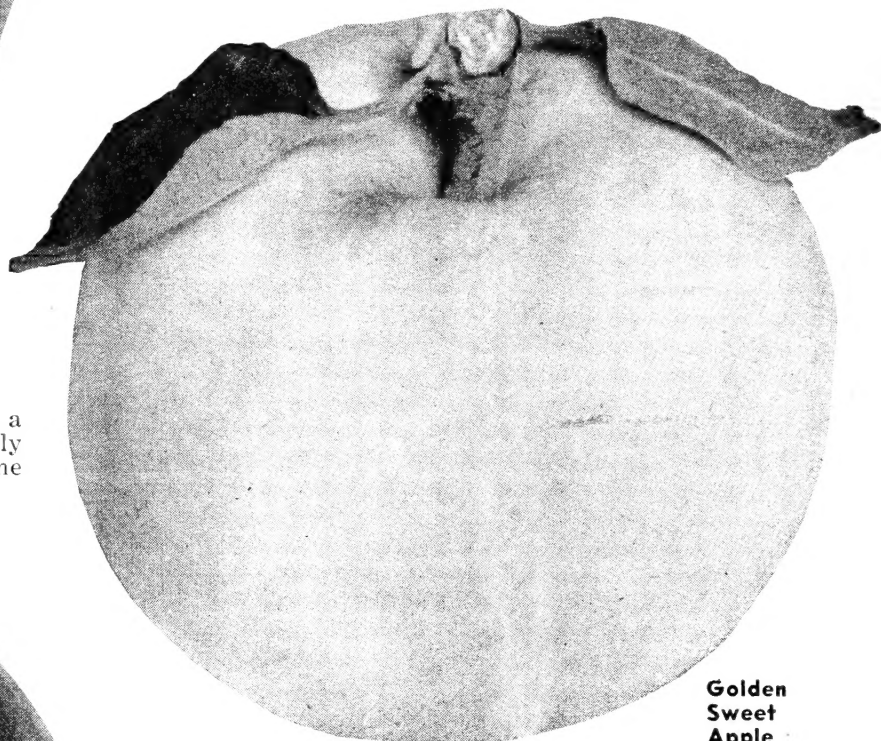

DOUBLE RED DELICIOUS

Considered as one of the finest Apples on the market. It bears young; excellent keeper; fruit colors several weeks earlier than the common old time Red Delicious. Fruit is large, solid red and has a delicious flavor that is unexcelled. Fine for both home and commercial use. Some other variety should be planted with Double Red Delicious to help pollinize; Flaming Triumph or Yellow Delicious would be fine. Ripens in October, and will keep until Spring.

No. 108

GOLDEN SWEET

This huge, delicious Apple is esteemed for its rich sweetness. Is unsurpassed for baking, canning, stewing and pickling; excellent for making delicious Apple pies and for a light-colored jelly. Fruit will remain crisp from October until May. We highly recommend this fine, Golden Yellow, Sweet Apple. At least one variety of Sweet Apple should be in every Apple planting. A fine variety to pollinize other varieties.

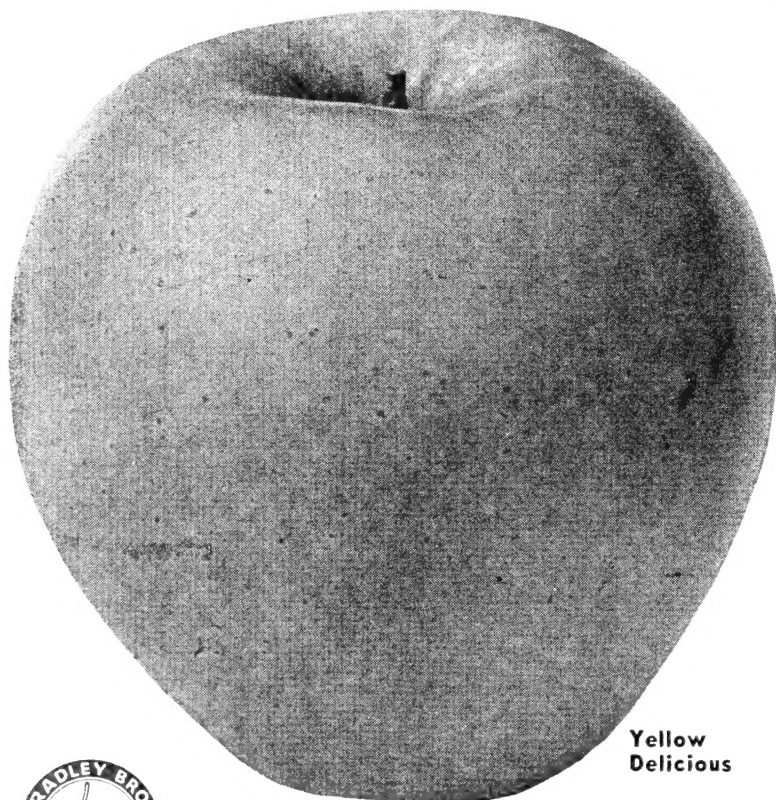

Golden
Sweet
Apple

No. 106

YELLOW DELICIOUS

Bears young and heavily. Large, golden in color, with a very delicious flavor. Ripens in late September or early October, and will keep until Spring. Sells high on the Market.

Save 2 to 3 years by planting Jumbo Size Trees.			

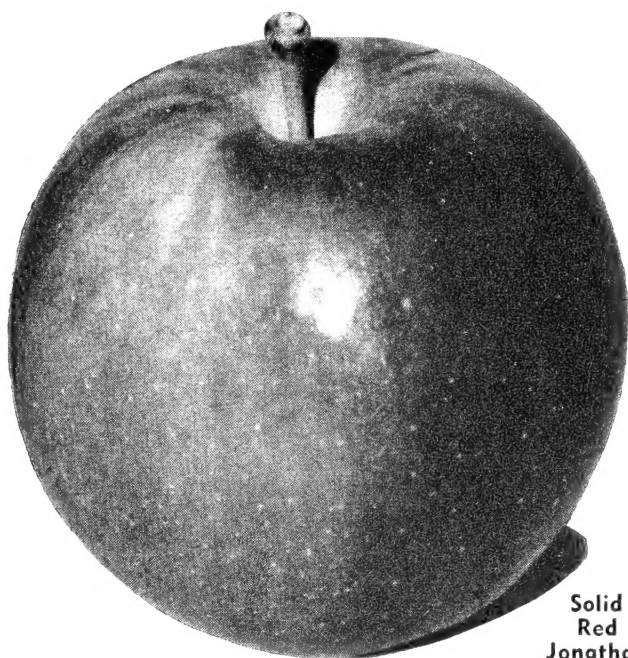

No. 116. EARLY RED BIRD, EARLIEST OF ALL APPLES—Good size, strikingly beautiful, fiery, flaming, scarlet red. Rich spicy flavor. Delicious eating and cooking apple. Trees strong growing, vigorous, extremely hardy. Bears young and produces tremendous annual crops. Comes on the market earlier than any other apple. Being very attractive have sold for almost double the price of any other variety. Plant Early Red Bird for Big Profits.

No. 112. SOLID RED JONATHAN (Winter Apple)—Often called Dark Red Jonathan. Everyone knows and likes this fine, dark red Apple. Has a most delicious flavor; flesh crisp, tender and juicy. Fine for cooking. Sells high on the Market.

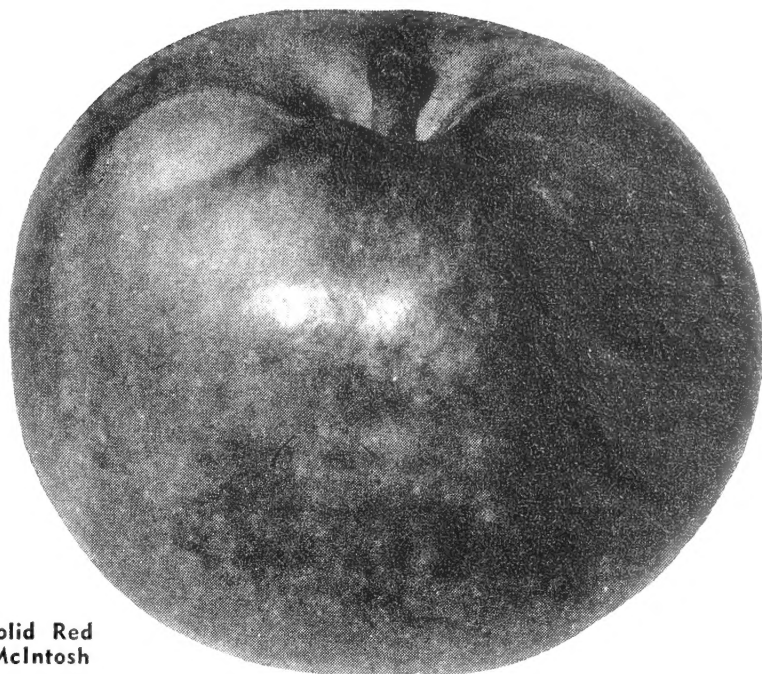

No. 118. SOLID RED McINTOSH—A valuable, hardy, attractive Apple; good size, solid red. Flesh white, fine, very tender and refreshing. Good annual bearer; comes into fruiting early; yields large crops; ripens in early October. One of the best varieties.

No. 125. RED NORTHERN SPY (Winter Apple)—Dressed up in its new bright, red skin, the old hardy favorite retains its famous quality and flavor. Large fruit, firm in flesh and skin, it keeps wonderfully well in storage. Very much a favorite for drying, baking, pie making, cooking, freezing, etc.

Solid Red Jonathan

Solid Red McIntosh

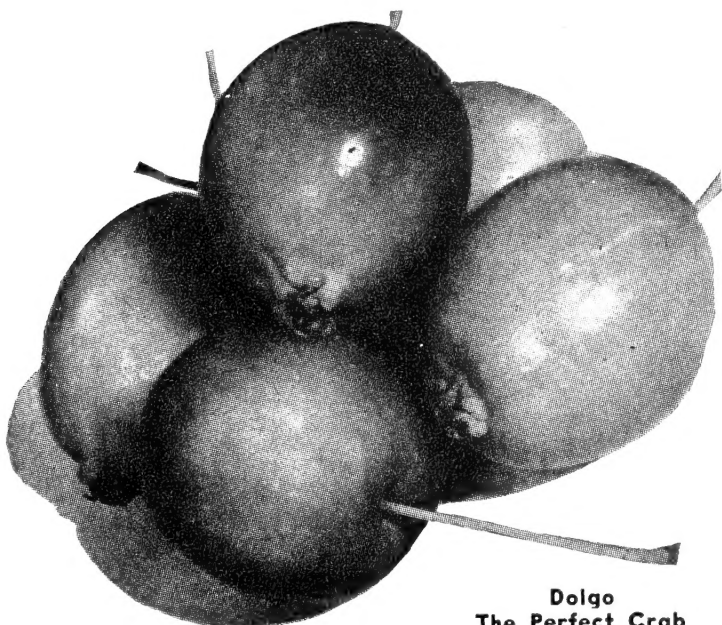

Winter Apple

No. 121. WINESAP CRIMSON (Winter Apple)—Carries at least double the color of the original Winesap, otherwise the same in growth, hardiness, etc. This variety belongs in every orchard because it bears and keeps so well right through the Winter; crimson Winesap with its double color. The fruit sells on the Market for more money.

No. 109. BEACON—This fine new Apple originated in the Minnesota Fruit Experiment Station. Is much better than the old Duchess. The fruit is large, a solid bright red, very fine quality and ripens in late August here. It is very hardy and extremely productive. Fine for eating, pies, sauce, etc. Bears very young.

No. 114. WEALTHY—By far the most popular Fall Apple; it ripens here in late August. Fruit is large, red striped with tender, juicy flesh of fine quality. Very hardy; bears young and heavily.

Dolgo The Perfect Crab

Dolgo Crab in Bloom

Dolgo Crab No. 124

Most Distinctive As An Ornamental Fruit Tree

Every year just full of bright red fruit which makes the finest tasting and most delicious jelly; also good for pickling. Tree itself does not grow too large and is attractive enough to be planted in your lawn as a Flowering Crab.

4-5 Ft. \$1.20 each

5-6 Ft. \$1.40 each

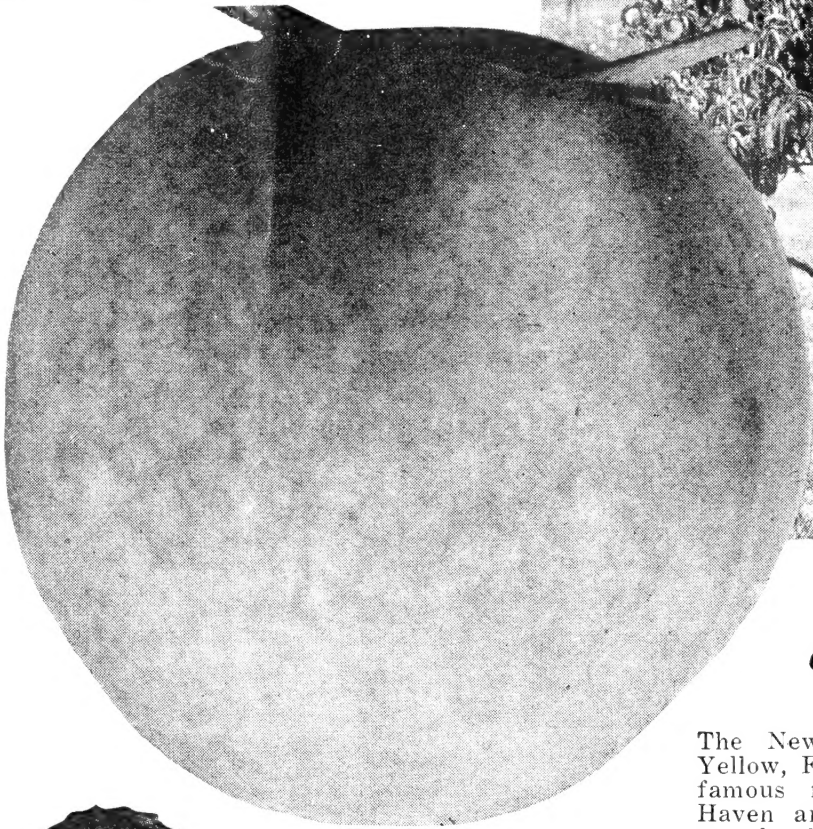

QUICK BEARING PEACHES

Very few fruits enjoy such general popularity as do Peaches. They combine delicious flavor, attractive appearance and health giving fruit value. Peaches can be grown on any soil that will produce the average yield of farm crops. For many years it has been the popular opinion that Peaches would thrive in only certain sections of the Country. With the coming of the new and much hardier varieties, it has been shown that Peaches can be grown over a very large section of the United States. We are of the opinion that the varieties we sell are the best and most hardy varieties. Each tree we sell is very carefully inspected, has lots of roots, straight body, and will grow rapidly and begin bearing very early.

Golden Gem No. 126

In our opinion, it is the finest and hardiest Peach grown. This huge, delicious, hardy Peach can be successfully grown as far North as any variety known to us. This marvelous Peach will thrive and bear fine crops of fruit when such varieties as Elberta, J. H. Hale and Belle of Georgia will often be killed by cold Winters and late frosts. Fruit very large and uniform in size and shape. Color rich Golden Yellow, with a sparkling red cheek. A perfect freestone. Has a rich, spicy flavor which is, in our opinion, unsurpassed. Golden Gem ripens a few days ahead of Elberta. We consider the Golden Gem the finest Peach grown. A Peach which simply melts in your mouth.

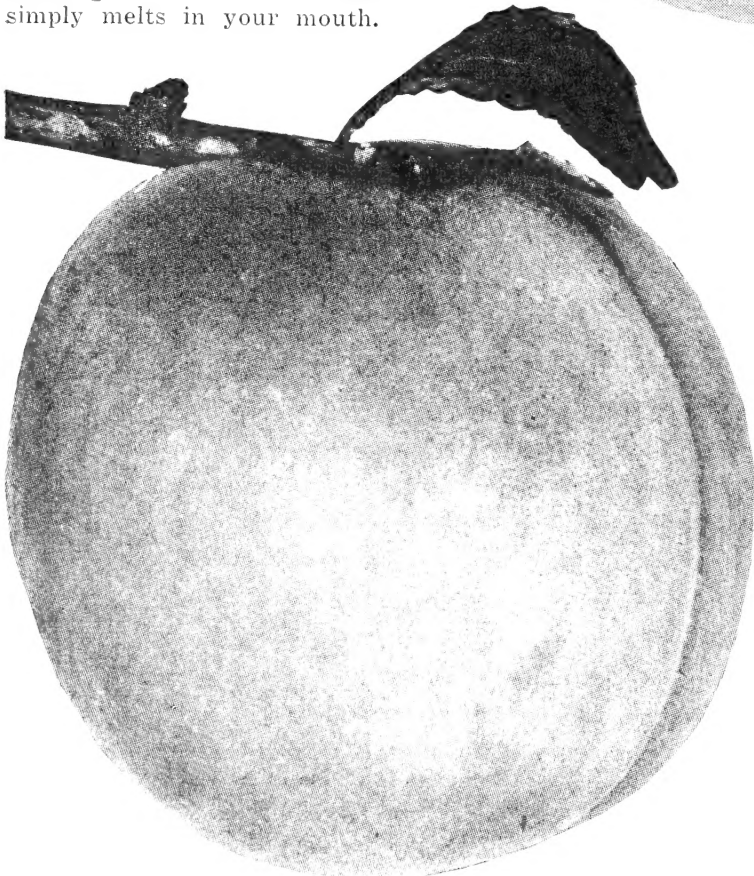

Golden Gem

2 Year Golden Gem
Peach Tree

Fairhaven No. 142

The New, Sensational, Earliest, Yellow, Freestone Peach. Has the famous flavor bred into South Haven and Hale Haven. It is a very hardy variety and a big yielder. 1—Extra Early. 2—Brilliant color before it fully ripens. 3—Fine Flavor; Sweet and Juicy. 4—Good Shipper; Firm Flesh and Tough Skin. A profitable, commercial variety. Excellent for Home use where a huge, yellow-flesh, early Peach is desired. Perfect freestone. Medium to large size; fine texture, sweet and of excellent quality. Smooth skin, almost fuzzless. Brilliant red color with creamy yellow, tender flesh. Always bears heavy crops. Originated at the Michigan Experimental Station in 1930 and since has been thoroughly tested. An excellent variety to plant beside Golden Gem.

ELBERTA PEACH

Elberta peach ripens here about August 15th. North of Chicago about 20 days later. South of Memphis, Tenn., about 20 days earlier. By this you should be able to figure when all varieties ripen in your section.

No. 135 *Shippers Late Red*

Bears about 17 days after Elberta. Skin yellow, with an attractive red coloring. We consider this one of the most perfect Peaches if you are looking for one of the largest, richest, most beautiful, late, yellow, freestone Peaches. It is round and uniformly shaped. Flesh is orange red around the small pit. The rich red color is retained in the canned fruit and juice. You will want to can this variety exclusively for your fancy table use. Perfect Freestone. Don't fail to plant SHIPPERS LATE RED this year. It is a Peach you will be proud of and want to show your friends and neighbors.

No. 136 *Golden Jubilee*

The distinguished Peach. Fine flavor; yellow freestone; a sure cropper. Resists excessive cold, severe Winters and late, heavy Frosts. Large in size. Ripens from two to three weeks ahead of Elberta. Considered to be the best early ripening variety. Attractive color and fine texture. Profitable for Market; excellent for Home. What more could you expect in any kind of fruit? One of our favorites.

Golden
Lemon
Cling

Shipper's
Late Red

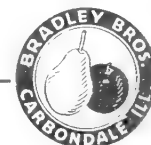

No. 128. ELBERTA—Considered the money maker. Leader of all Peaches. The greatest commercial variety on the Market. 50 percent of the Peaches planted are Elberta. This Peach is large, yellow, with red cheek; juicy and highly flavored; flesh yellow; freestone. Perhaps the most well known Peach in America.

No. 130. POLLY—A white peach that has been able to stand 15 to 20 below zero. It is a perfect white freestone peach. We do not know of any one variety that has the luscious flavor that Polly has. Is very juicy, but quite firm. Ripens a few days before Elberta. Polly originated in Iowa, which makes it suitable for the South or extreme North.

No. 132. HALE HAVEN—A premium peach for every Home and Commercial Orchard. Ripens two weeks before Elberta. Steadily gaining favor because of its size, good color, good shipping qualities and hardiness in bud. This marvelous new Peach, an introduction of the Michigan State Experimental Station, is a cross between the South Haven and J. H. Hale. It is an aristocrat of the first order. Extremely high color before ripening. Will stand Cold or Hot temperatures. An excellent shipper; very hardy; heavy bearer. This variety is one of the most perfect Peaches.

No. 133. FLAMING GOLD—New below zero Peach that is hardy enough to withstand cold Northern Climates. Few Peaches have made a better record. The fruit is very large, a perfect freestone, golden yellow skin, beautifully blushed with crimson. The flesh is full of juice and has a rich, sweet flavor. Very firm, wonderful shipper, sells high on the market. Ripens about 10 days ahead of the Elberta. Trees strong, vigorous, with heavy dark green foliage, very ornamental. A fine variety. Sold only by Bradley Brothers.

No. 131. GOLDEN LEMON CLING—The sweetest, finest, most delicious Golden Yellow fleshed cling peach we have ever grown. Fruit is of immense size, lemon shaped. Its golden color with a rich crimson blush makes it one of the most beautiful peaches. Quality is superb, honey-sweet juice, tender, golden-yellow flesh, with a most alluring flavor. **DELICIOUS CANNING PEACH.** Unsurpassed for eating and cooking; so sweet that little sugar is required. A great favorite with housewives. Its golden flesh has a lusciousness found in no other fruit. It is most ideal for pickling and preserving. Golden Lemon Cling's marvelous beauty causes it to sell on the market at a premium price. Trees thrifty, hardy and most satisfactory in every way. Ripens six days after Elberta. Be sure to plant a few trees of this most perfect clingstone all-purpose peach.

Sweet CHERRIES

No. 148 BLACK GIANT

In our opinion, it is the best sweet Cherry. It is the most dependable, the fruit is of immense size, its glossy blackish purple color looks intensively tempting, is very delicious fresh from the tree, a wonderful canner, and is fine for quick freeze. Black Giant is creating a sensation all over America, young, heavy and regular bearing. If you wish the best and most delicious Black Sweet Cherry, order Black Giant. You will never be sorry.

No. 150 GOLD BOND

Gigantic in size and has a rich, sweet flavor. You will never know how good a huge sweet Cherry can be until you taste a tree-ripened Gold Bond Cherry. The fruit will keep long even after fully ripe. Extremely hardy and ripens in Mid-Summer. A Cherry that should be in every Home or Commercial Orchard. This is a choice yellow sweet cherry.

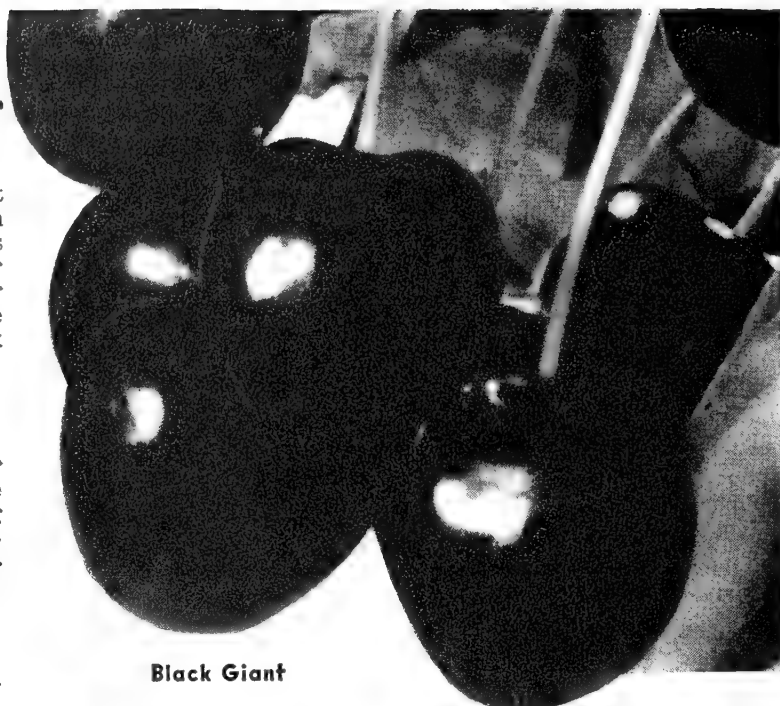

No. 144 FLAMING MONARCH

Enormous, blood-red, hardy Cherry. Perhaps this variety should be placed with the tart varieties as the trees are dwarfish in growth and begin bearing as soon as Sour Cherries. The trees are perfect in growth and are as resistant to disease as any Cherry we have ever grown. Flaming Monarch will bear enormous crops of gigantic, delicious fruit even under unfavorable conditions. It is of excellent quality and will always sell at top prices. Delicious to eat from the tree, or hand; a perfect canner, and makes the most delicious pies. A fine variety for quick freezing.

REDUCED PRICES ON

Our First Quality, Double Yield, Heavy Rooted, Quick to Bear, Flaming Monarch, Majesty, Black Giant, Gold Bond Cherry Trees.

Grand Champion Cherry Orchard No. 2-A

Thrive in the South and defy the cold winds of the North. We believe these to be the finest varieties grown.

1 Gold Bond	1 Flaming Monarch	4 Select 4 to 5 feet trees for only	\$6.45
1 Black Giant	1 Majesty		
2 COLLECTIONS—EIGHT TREES for only.....			\$11.98

No. 146 MAJESTY

Teammate to Flaming Monarch. Only difference is it ripens about 10 to 15 days later and is almost black. Has the same bearing qualities and trees are also dwarfish in habit. The Flaming Monarch, Majesty and Gold Bond are, in our opinion, the All-Star Cherry Orchard. Each variety will pollinate the other. It is best to plant two Sweet Cherries in the same planting.

PIE CHERRIES

We sell only heavily rooted, well branched, good trees; the kind you want and the kind that will develop into shapely, heavy bearing trees very young. Please place your order as early as possible.

No. 152 EARLY RICHMOND

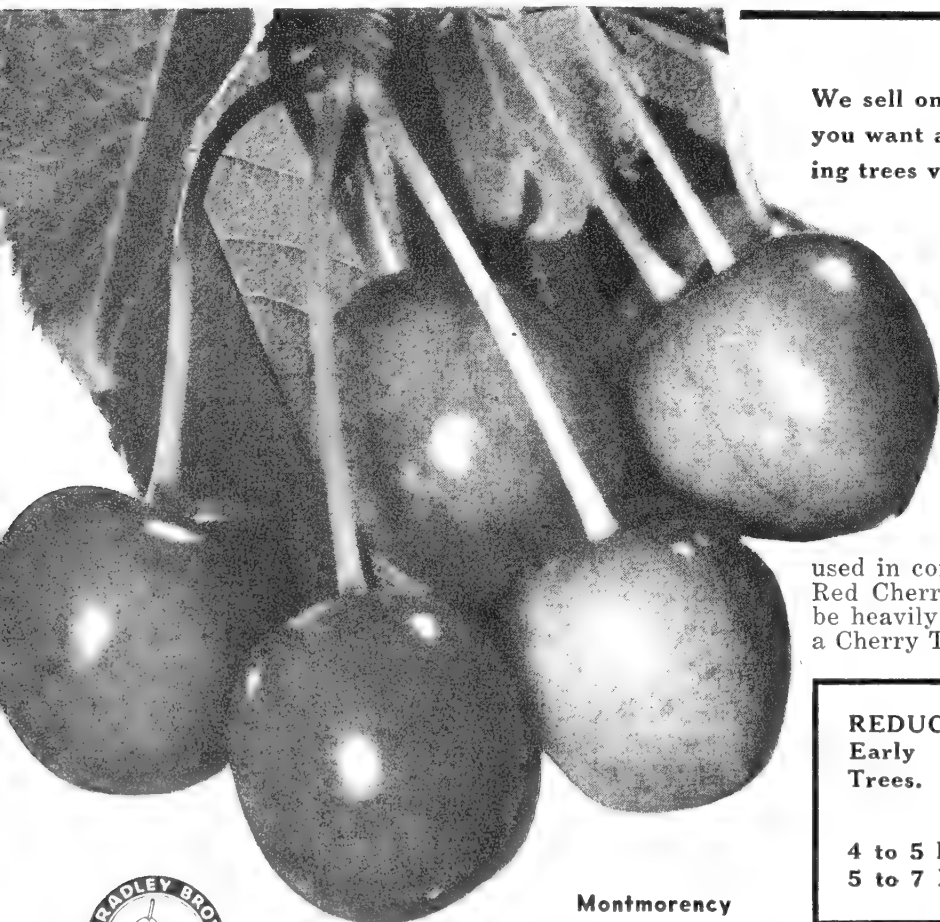

The pie Cherry. Still the favorite where early fruit is wanted. Early Richmond is a bright red Cherry; juicy and full of fine flavor. The trees bear heavily and are considered the hardiest of all red Cherries. You should certainly plant one or more trees of this variety.

No. 156 MONTMORENCY

The big red Cherry. Best for canning; ripens 10 to 12 days after the Early Richmond; yields heavily and ripens evenly. Grand for pies. This is the variety most used in commercial canning and also the one by which all other Red Cherries are judged. The quality of trees we ship you will be heavily rooted, well branched; in fact, all you would want in a Cherry Tree.

REDUCED PRICES ON Our First Quality, Double Yield Early Richmond and Large Montmorency Pie Cherry Trees.

FOUR FINE VARIETIES OF PEARS

FIRST QUALITY—HEAVY ROOTED TREES

No. 160 **GOLDEN DELICIOUS**

Here is what we consider the sweetest, richest and most attractive Pear. Will produce heavy crops on any kind of soil that will produce the average farm crop. Extremely hardy and rugged enough to withstand the hot, dry weather in the South. It's smooth, spicy, juicy and fine-flavored; the kind of Pear that will simply melt in your mouth. The huge fruit is an attractive golden yellow with a dazzling, brilliant red cheek. We consider Golden Delicious Pear the best in America in size, color, flavor and productiveness; what more could you wish for?

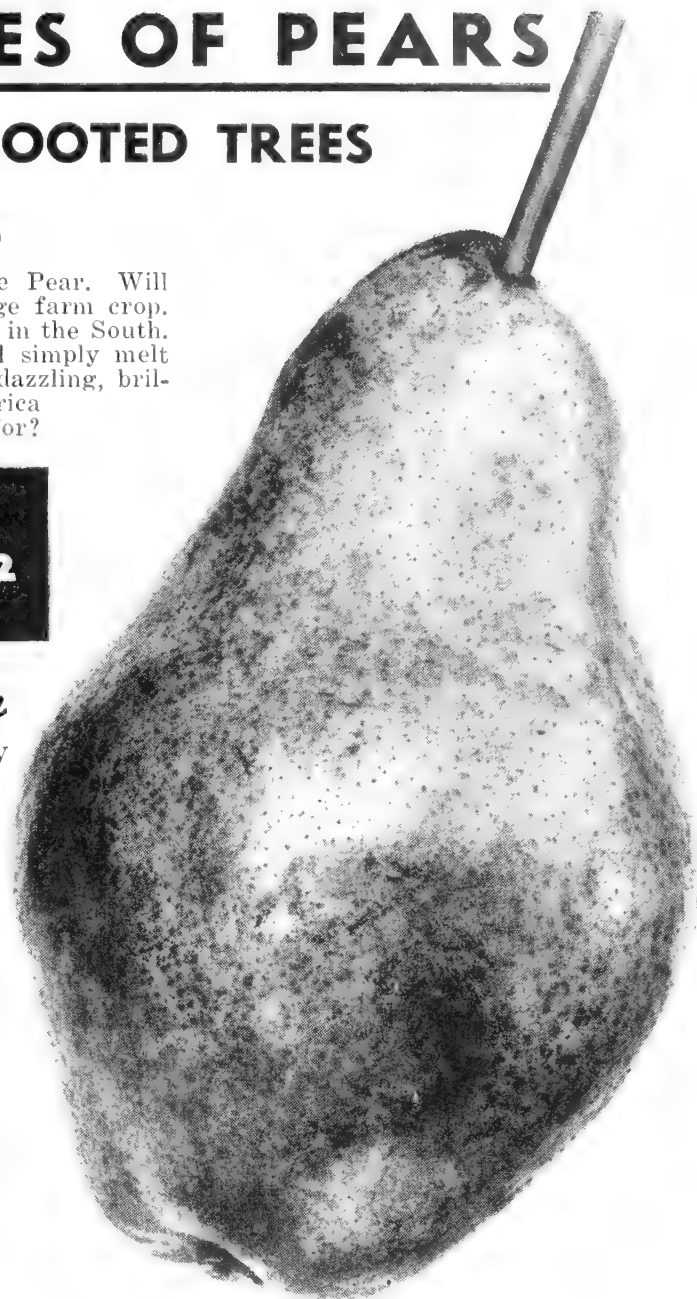

ALL STAR PEAR ORCHARD No. 4-A

Extra hardy and delicious. Best, earliest and latest ripening varieties.

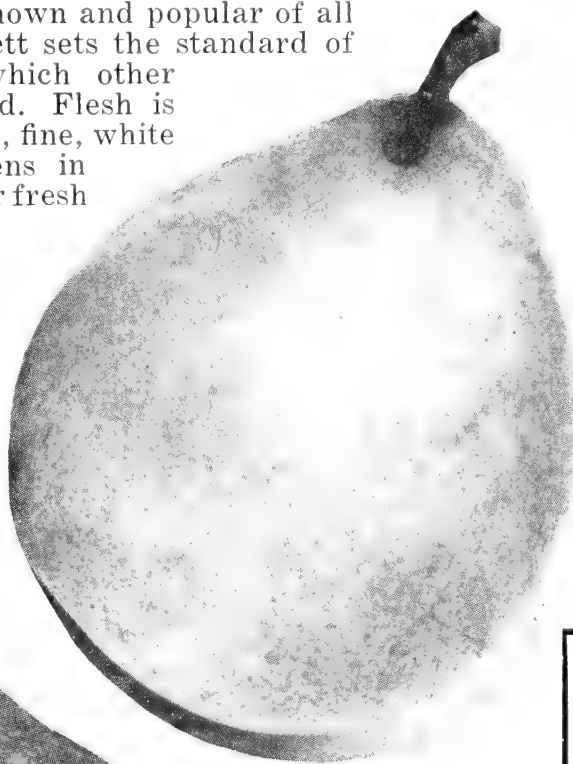

1 Golden Delicious 1 Lincoln 4 Select 4 to 5 ft. \$6.12
1 Golden Sugar 1 Bartlett Trees, for only
2 COLLECTIONS—EIGHT TREES, for only \$11.74

No. 162 *Famous* **BARTLETT** Pear

Large, waxy yellow fruit with red blush. Very attractively shaped and uniform in size. The Bartlett is most widely known and popular of all the Pears. Bartlett sets the standard of perfection by which other Pears are judged. Flesh is superbly flavored, fine, white and juicy. Ripens in summer. Ideal for fresh desserts, canning, summer storage. A big money maker, the Bartlett Pear is truly the king of the Pears.

Golden Delicious—Heavy
Producer—Fine Flavor

Lincoln Pear

REDUCED PRICES ON ALL VARIETIES of Our Superior Quality, Heavy-rooted, Double Yield Pear Trees.

No. 161 **LINCOLN PEAR**

An old favorite with a proven, outstanding quality. Recommended for sections east of the Rocky Mountains and from the Great Lakes to the Gulf. A beautiful, large, golden yellow with a glowing red blush. Delicious fresh from the tree, wonderful canner, trees thrifty, long lived. Bear young. Ripens in late Summer.

No. 158 **GOLDEN SUGAR**

The Pear to plant for eating and canning. Medium size; skin rich golden yellow; flesh very fine-grained; juicy, sweet and most delicious. Very productive and very hardy; will thrive in some sections of almost every State. If doubtful, write us and we will be glad to recommend the best variety for your neighborhood.

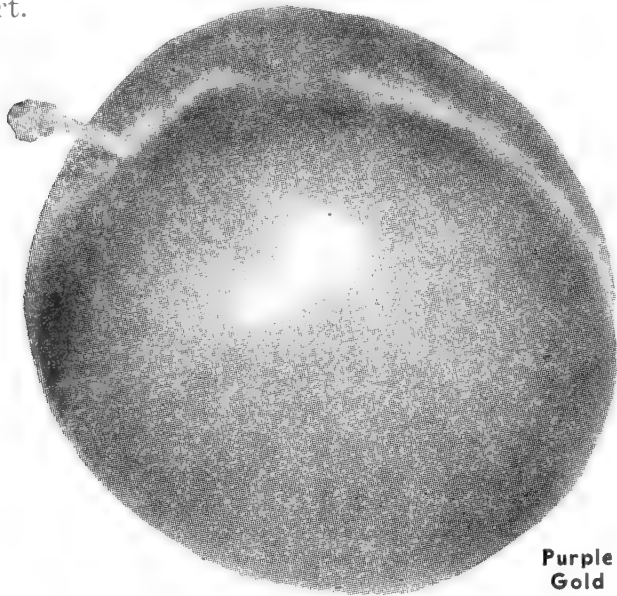

Golden Sugar Pear

Bradley's Select PLUM TREES

Easy to grow and usually bear within two years from planting. Few people realize how easy it is to grow the luscious better varieties of Plums and Prunes. Plum Trees, with their fine shape and bright leaves, are attractive in any part of your Garden or Lawn. Plant 16 feet apart.

Purple
Gold

No. 168 PURPLE GOLD PLUM

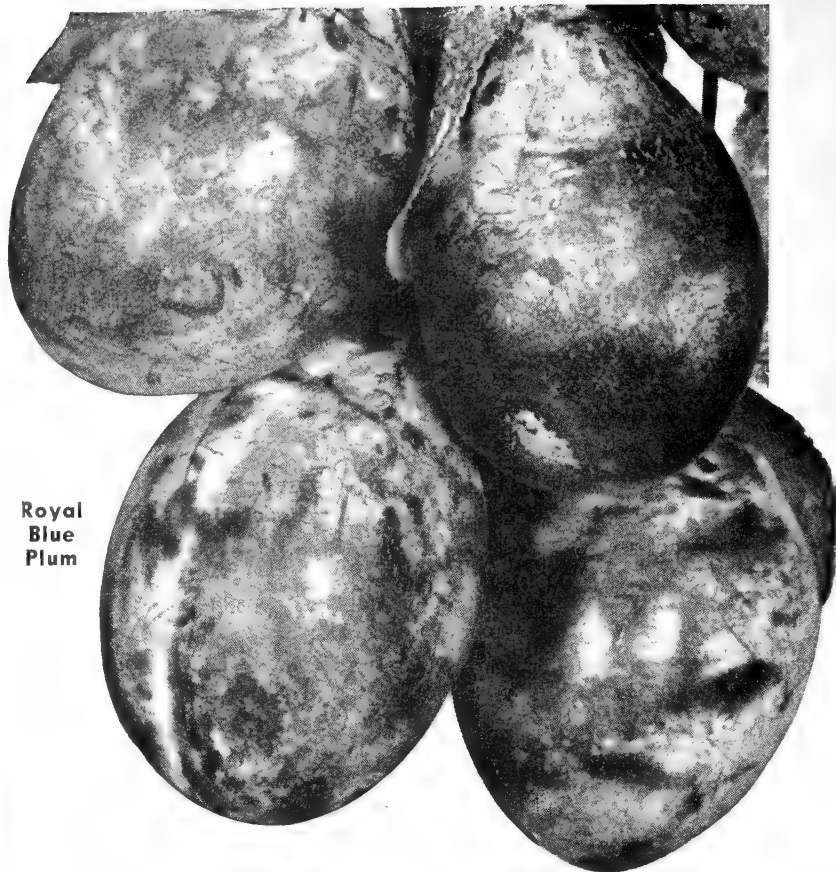

A Plum with a fine purple skin and a delicious, golden-yellow flesh. Unsurpassed for beauty. Easy to grow; in fact, all you need do is to see that the tree is carefully planted. Of course, if well cared for, it will yield larger and more delicious fruit.

No. 170 GOLDEN GIANT PLUM

Easy to grow and very productive. We consider it a Master-piece of fruit breeding. A beautiful golden yellow.

No. 177 ABUNDANCE PLUM

Fruit very delicious and showy; has a dark red color. Exceedingly juicy, tender and sweet. A fine Market variety. Exceedingly productive. Ripens here in late July.

Royal
Blue
Plum

No. 171 ROYAL BLUE PLUM

Without doubt this is the leading Plum today; it starts to bear younger than other varieties and produces a heavy crop every year. Trees are thrifty, strong growers and are hardy in all sections. You'll agree it is the sweetest and most flavorful Plum you have ever tasted. The flesh is golden yellow in color, fine textured and juicy; requires very little sugar for canning. Fruit is extra large size and has a beautiful dark blue skin; ideal for canning and drying. We consider this the leading commercial variety not only for its attractive fruit, but for its quick bearing and early ripening qualities.

REDUCED PRICES ON ALL VARIETIES of First Quality, Heavy-rooted Plum Trees.

- 1 PURPLE GIANT PRUNE

No. 10-A, 5 Select
4 to 5 Feet
Trees for only

\$7.69

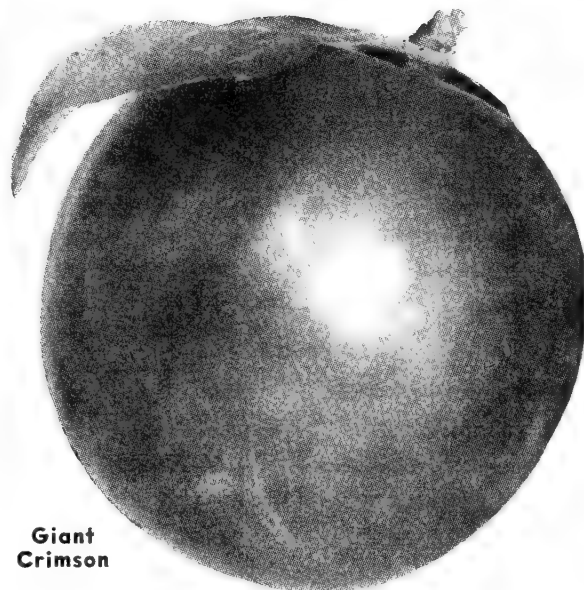

This Bargain, in our opinion, brings you the four best Plums and the best Prune. 5 Select Trees at extremely low price.

No. 172

GIANT CRIMSON PLUM

Here is the extra large Plum which, in our opinion, is the finest. Huge, dark red; excellent flavor; very hardy, and will thrive in the extreme South. Of course, it will thrive in all the Central States and is hardy enough for the North. We believe it will thrive and yield large crops every year. Most delicious, largest, beautiful, darkest red Plum you can buy.

When all other kinds fail to bear, you can always depend on Giant Crimson. Don't fail to plant this, our finest variety.

Giant
Crimson

**LARGE, SWEET
SUGAR PRUNE**

PURPLE GIANT Prune

New hardy, jumbo-size prune. Often bears fruit in two years after planting

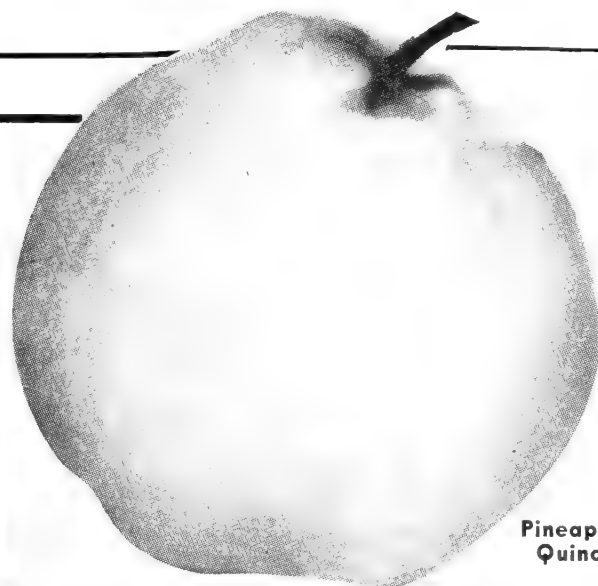

No. 164. PURPLE GIANT PRUNE—Thrifty trees that will thrive under conditions considered unfavorable. In our opinion, the Purple Giant is the hardiest, sweetest, best flavored, largest and easiest to grow variety. Some Purple Giants measure 2½ inches; this is unusual for any Prune or Plum. A perfect freestone; skin rich purple; flesh golden yellow. Very beautiful in your front lawn. Has beautiful blossoms in early Summer which will be followed by loads of fruit that will turn to an attractive rich purple in the Fall. We consider the Purple Giant Prune the best variety.

REDUCED PRICES ON OUR HARDY, PURPLE GIANT PRUNE TREES

HARDY QUINCE

No. 176. PINEAPPLE—We consider this by far the best Quince. The tree is healthy, hardy, and very prolific. Size is enormous. The flavor is suggestive of the Pineapple; in flavor, texture and quality it is unapproached; delightfully fragrant; fine canned or dried, it retains the quince-apple flavor. Can be eaten like an apple, and is far the best variety for jellies and preserving. Trees thrifty, healthy, and never fail to produce large crops. **Price: 4 to 5 Ft. Trees \$2.50 each.**

BOSTON NECTARINE

ONE OF THE MOST DELICIOUS OF ALL FRUITS

The Nectarine has size and a smooth skin like the plum. In other ways it is more like a peach. It is of rich, delicious flavor, juicy and melting, and highly prized as a dessert fruit. It is much superior to the peach as a dryer and makes excellent preserves. The Nectarine is as hardy as the peach and requires the same culture.

No. 166. BOSTON—Bright yellow with red cheek; flesh yellow and of excellent quality. The finest of all Nectarines. Tree vigorous and an early bearer.

DWARF

A FULL ORCHARD FOR A LIMITED SPACE

Beautiful and Fragrant
 Flowering Trees in Spring

Plant them in the border, among shrubs and perennials or in a miniature orchard. They're perfect anywhere. They stay dwarf in size and bear loads of delicious, large

size apples.

These hardy, productive trees bear abundantly, more fruit in proportion than an average tree. They are easy to prune and spray. Fruit is easy to pick. They usually bear the first to second year after planting. Quality of fruit is excellent for eating, preserving and freezing. Extremely attractive during early spring, they are loaded with gorgeous blooms. (This makes them two-fold—a **productive** tree and a **beautiful** tree-shrub.) An ideal planting for your limited amount of space. Get **yours** now. Supply limited.

Compact, plant them about 15 feet apart, attain a height in the neighborhood of 10 feet. **DWARF APPLE VARIETIES**—Anoka, Red Delicious and McIntosh. PRICES, \$2.00 each; 2 for \$3.75.

Order All Dwarf Apple Trees by No. 540—Also State Variety.

DWARF PEAR. PRICES, \$2.25 each; 2 for \$4.00. Varieties Golden Delicious, Golden Sugar.

Order All Dwarf Pear Trees by No. 550—Also State Variety.

Dwarf Apples

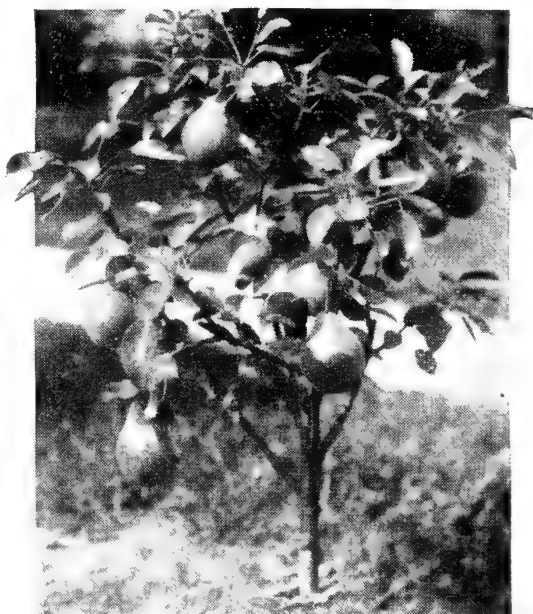

Photo of a 2-year-old dwarf pear tree. Measures just 30 inches from ground to tip of highest branch. Started out this Spring with 27 pears, of which 10 matured in fine large pears.

Northstate

Easy to Grow APRICOTS

No. 174 NORTHSTATE APRICOT

This is the variety we consider the most sensational, the hardiest and most delicious. It will produce big, golden yellow fruit that we believe the finest and most outstanding variety. It has proven to be drought resistant; it came through the terrible droughts of 1933, 1935 and 1936 with flying colors—in full foliage and no apparent effect of the drought and the terrible heat. We consider the Northstate the largest, most attractive, the finest flavored and most productive. In short, we believe the Northstate is the best variety grown. Of course the Moorpark and Early Golden are very fine, outstanding varieties. As some Growers believe it is necessary to plant two varieties to insure fruit—plant one tree of the other varieties we offer with the Northstate.

No. 179 EARLY GOLDEN

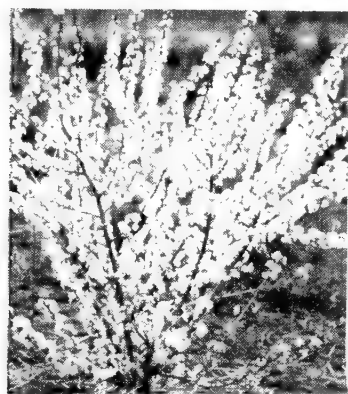

A new Freestone variety which possesses a fine flavor. Skin is smooth—fuzzless, and pale orange in color. Medium to large in size—makes an excellent variety to plant with Moorpark.

No. 173 MOORPARK

You'll like this attractive variety. High quality and fine flavor. Fruit is large, deep yellow, with a red cheek. Grows to about the same size as a Peach tree. Ripens Mid-August.

Hansen
Bush
Cherry

No. 518 HANSEN BUSH CHERRY

An ornamental shrub producing delicious fruit; easy to grow; perfectly hardy anywhere. The result of over thirty years' research and selection work by Prof. N. E. Hansen of South Dakota State College. A shrub which is very effective in any landscape planting and which bears delicious fruit of good size and excellent flavor. Starts

to bear the year after planting and continues year after year. Makes superb jam, or clear, sparkling jelly. Don't neglect getting a few of them to add to your plantings. They always retain their dwarf stature. Heavy, 2-year size. Price, 50c each; 3 for \$1.40.

No. 197 NANKING CHERRY

A BEAUTIFUL AND ORNAMENTAL shrub for your lawn that bears great crops of delicious, fine cherries. Fruit is so abundant it takes but a few minutes to pick a quart or two right in your own yard. The delicious fresh fruit is excellent for making pies or superb, sparkling jelly. The attractive, shapely bushes grow from 6 to 7 feet tall, work well into a planting about the house, or a shrub border. Fragrant, blossom pink, but appear early and open to pure white. Our strong, sturdy bushes start bearing year after planted and second year branches are bending and literally covered with sparkling, bright red, superb cherries for pies, jelly and jam. Beauty plus delicious fruit.

Strong 2 to 3 feet Bushes, Each \$1.35, 2 for \$2.50; Extra Heavy Bearing. Size 3 to 4 feet Bushes, Each \$1.50, 2 for \$2.80.

ALLSTATE PECAN

This is a very hardy, large, thin-shell Pecan. This Pecan can be successfully grown over as large a section of the U.S.A. as any other known Pecan. Usually Pecans will grow in soils that will produce good farm crops. They, like any other Pecan, will thrive in low land even though it is sometimes flooded. Trees grow rapidly and usually begin bearing young. Nuts large; kernels crisp, plump and very delicious. The Pecan is a long-lived tree.

No. 186

STUART PECAN

Hardest of the budded Paper Shell varieties. Can be successfully grown as far North as Southern Illinois. Nuts large, very delicious and of excellent quality. Trees ornamental and of rapid growth. A very profitable variety for Commercial planting. A grand Paper Shell variety for those located South of Central Illinois.

No. 187 New Hardy ENGLISH WALNUT

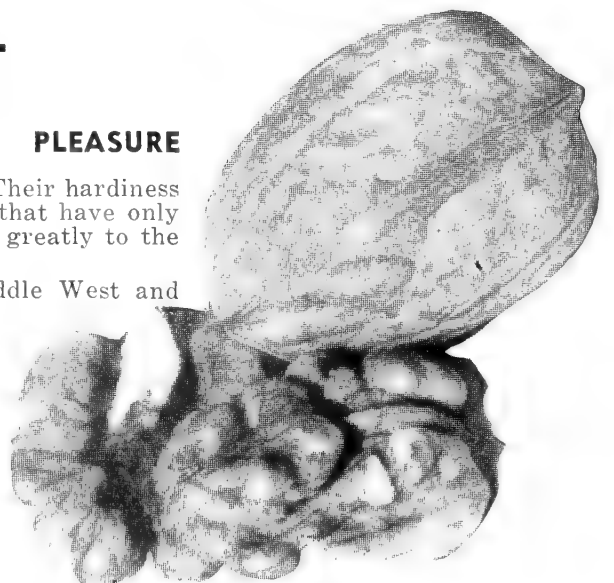

PLANT NUT TREES FOR PROFIT, BEAUTY, SHADE AND PLEASURE

The New Hardy English Walnut will grow on practically any type of soil. Their hardiness and rapid growth, long life and beauty makes them very valuable for those that have only a little room in which to plant trees. They require no special care and add greatly to the value of any property on which they are planted.

The New Hardy English Walnut has been extensively planted in the middle West and South and has proven very successful. This is a tree that we personally think everyone should plant. They attract great interest.

They are beautiful in appearance and make a wonderful shade tree and will produce a fine crop of nuts for you while the ordinary shade tree produces nothing. The nuts have an extra thin shell and the large, plump, meaty kernels come out easily whole or in halves. There are very few trees in cultivation that pay larger profits or are as well assured of a profitable market for their products. For ornamental shade trees, there are none with more grace, beauty or attractiveness.

PRICE: 2 to 3 Feet Trees \$2.75 Each, two for \$4.95, 5 for \$11.00
3 to 4 Feet Trees \$3.50 Each, two for \$6.45, 5 for \$14.95

NUT TREES Are A Permanent Investment

Thomas Grafted

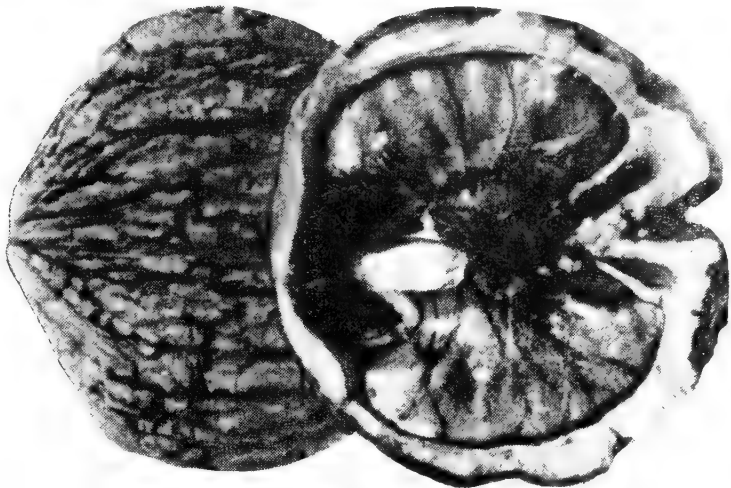

No. 188 BLACK WALNUT

A wonderful improved new strain which bears much earlier and has larger nuts with softer shell; easily cracked. Kernels easily come out in halves. It is claimed that a mature tree will produce 15 to 40 bushels of nuts which sell from \$4.00 to \$6.00 per bushel. It will grow in any section where the common Black Walnut will grow. We only have a limited supply of grafted trees this season. We advise that you order early.

PRICE of Sturdy, Well-rooted Trees.

	Each	3 Trees
3 to 4 Foot Trees	\$2.98	\$8.82
4 to 5 Foot Jumbo Trees	3.26	9.60

If interested in more than three trees, write for special prices.

Thomas Grafted Black Walnut

Thomas Black Walnut Tree

No. 189 *American* BLACK WALNUT

Trees bear heavy crops of large, round nuts of excellent quality. Trees grow fairly rapidly, attaining large size and majestic form in a rather short period of time. Fine for reforestation. Valuable for Timber.

SELECT 2 to 3 FT. TREES, 10 for \$3.50; 25 for \$7.00; 100 for \$31.00.

SELECT 3 to 4 FT. TREES, 10 for \$5.50; 25 for \$11.00; 100 for \$39.00.

SELECT 4 to 5 FT. TREES, \$1.50 EACH, 3 for \$5.00.

No. 192 CHINESE CHESTNUT

A new Chestnut with larger, better quality nuts. The trees we offer are blight-resistant and of only one quality—the finest grown. Not only do these trees produce large, delicious, full-flavored Chestnuts at an early age, but their beautiful rounded, spreading branches rapidly develop into a lovely shade tree to grace any home lawn. Have the thrill of roasting Chestnuts from your own tree over an open fire. Try them boiled or roasted—delicious beyond description.

PRICES: Heavy 3 to 4 ft. Trees, \$2.00 Each; 3 for \$5.25.

Chinese Chestnut

No. 191 FILBERT (*Corylus Americana*)

An attractive Shrub, or low growing bushy tree, producing abundant crops of delicious nuts the shape and size illustrated. Nuts have a tender, sweet, round kernel, very nutritious, often used to replace meat in the diet. Bushes have wide leaves, which color to bronze in Autumn. Will grow in almost any location or any type soil. Profitable to plant as a shrub or to use as a screen or background. Grows to be from 6 to 8 feet tall.

Price—Strong, 3 to 4 foot bushes, 65c each,
3 to 10, 60c each. 12 or more, 50c each.
100 for \$40.00.

RED GRAPES

No. 200. CARDINAL—A beautiful flashing Red. Giant in size; almost Seedless. Extremely delicious and an excellent producer. All you could wish for in a large, delicious, Red Grape.

No. 203. DELAWARE—Bushes and berries small but have the most delicious, sweet flavor. In the writer's opinion, it is one of the best Grapes.

No. 206. ROYAL PURPLE—Would be classed with the Red Grapes. Bunches extra large, very compact and solid. One of America's finest Grapes.

No. 207. CACO—Beautiful, large bushes crowded with big, amber-colored fruit. Very delicious; sweet flavored; rapid grower. Bears young and heavily on exceedingly hardy vines. Red or Amber Color. Immense in size.

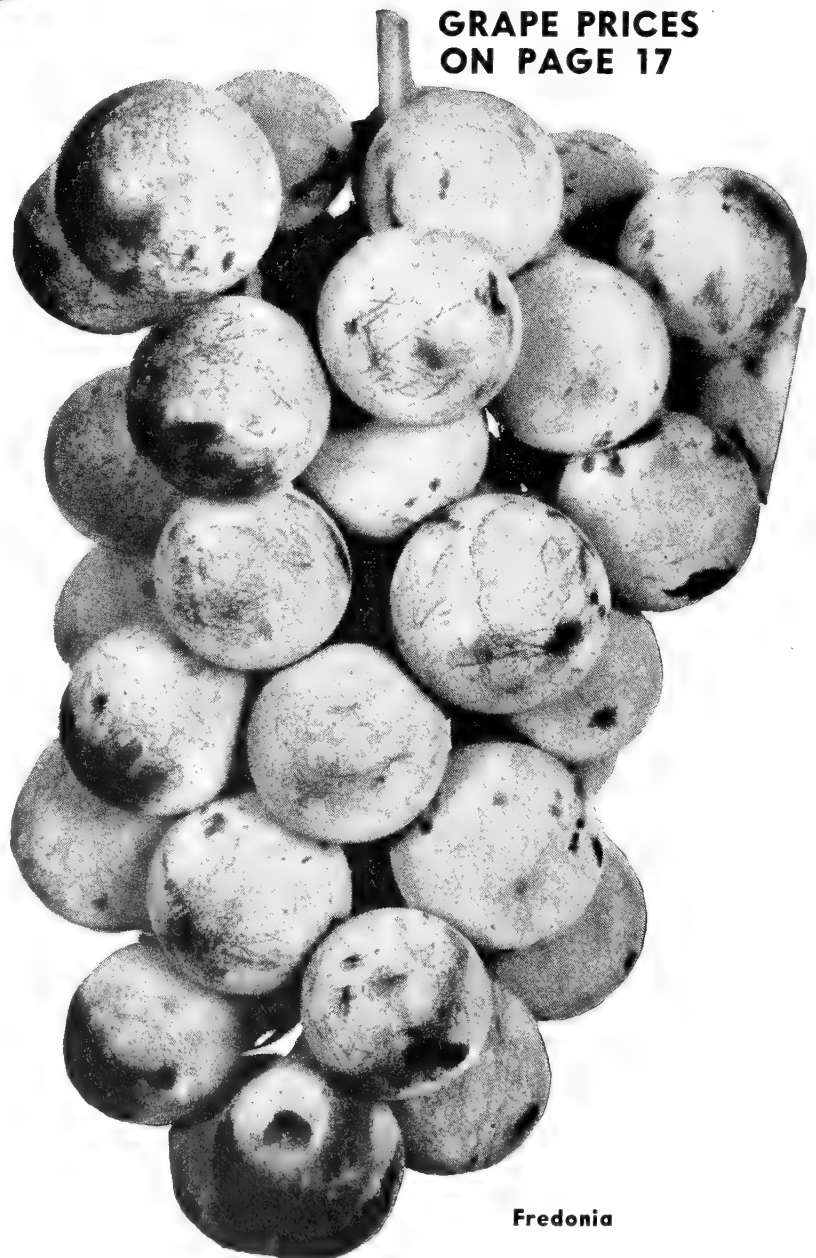

BLACK GRAPES

No. 208. VAN BUREN—Best Early Grape. Desirable for Home and Commercial planting. Has everything a good Grape needs.

No. 210. FREDONIA—A New Grape which Experts and most of the growers say will soon become the leading Black Grape in America. It ripens extra early, 20 days before the well known Concord. Fredonia is produced in huge bunches, and the berries, which are compact on the bunches, are large. An excellent keeper and big producer. In our opinion it is now the most leading, huge Black Grape in America.

No. 212. HUBBARD—Without question the finest early black grape. It has the most delicious flavor and is of the highest quality of any grape we have ever tested. Bunches extra large, very compact and solid, berries extra large, blue-black thin skin; few seeds. Vine is vigorous grower, enormously productive. We highly recommend the Hubbard.

No. 214. CONCORD—The leading Commercial Grape. Color, Blue Black; bunches and berries large. Hardy, Productive and an excellent Shipper. Succeeds over a large area. Excellent for Grape Wine.

Fredonia

WHITE GRAPES

No. 216. PORTLAND—A New Super-fine Rich White Grape. Ripens earlier than any known White Grape. As the fruit ripens earlier than any other, it is a Super variety for the extreme North. The large berries, which are compact on the bunch, are so sweet they may be eaten even before ripe. Heavy producer and very satisfactory for any Section.

No. 218. NIAGARA—Occupies same position among White Grapes as does the Concord among the Black Grapes. Bunches and berries large, greenish white, changing to yellow when ripe. A fine old variety.

No. 220. GOLDEN MUSCAT—Wonderful, New, Golden Yellow Grape for Home use and Roadside Market. It is one of the best. Possesses an attractive, rich, golden color and of European Muscat aroma. Vines very hardy, vigorous, very productive. Bunches large and compact. Berries large, sweet and tender. Anyone who cares for Grapes will like the Golden Muscat.

Cultivated—BLUEBERRIES

THESE GIANT CULTIVATED are the results of scientific breeding by State Experimental Stations and are much superior to the ordinary wild Blueberry. From 2 to 6 Bushes in your Garden will furnish your family with plenty of berries for the most delicious Pies and Canning. Blueberry Bushes are beautiful and make very Ornamental Bushes, reaching a height of from 6 to 8 feet, depending on the varieties you plant. Blueberries require an acid soil which contains an abundance of Peat Moss or other partly decayed vegetable matter. If your soil is deficient in acid, a heavy application of Peat Moss, rotted sawdust or rotted leaves should be applied. If not convenient to get either of the above, use Aluminum Sulphate. Use about one pound per plant. Your Druggist or Fertilizer Dealer in your Town should be able to furnish the above materials. Plant in rows 6 to 7 feet apart and the Plants 3 to 4 feet apart in the row.

FOR PROPER POLLINATION Plant 2 or more varieties.

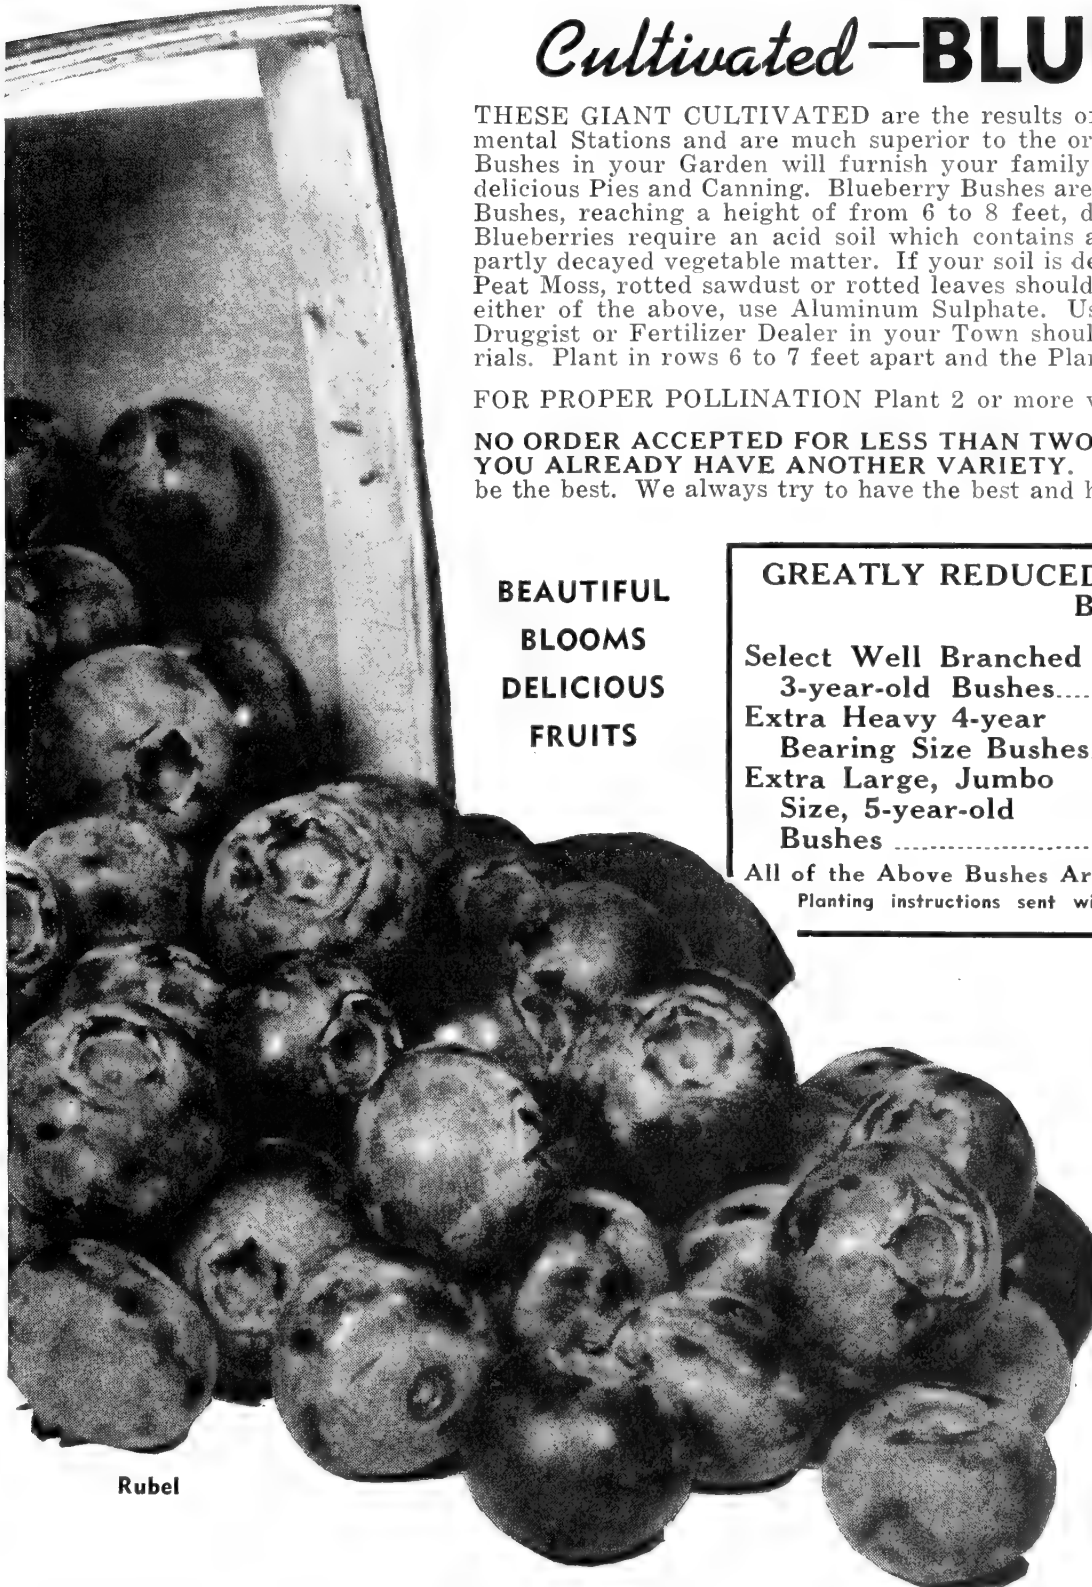

NO ORDER ACCEPTED FOR LESS THAN TWO VARIETIES UNLESS YOU STATE YOU ALREADY HAVE ANOTHER VARIETY. We believe the following Varieties to be the best. We always try to have the best and have been successful so far.

Rubel

No. 271. CABOT—The earliest variety to ripen. Berries have a very sub-acid flavor. Do not plant less than 2 feet apart.

No. 272. RUBEL—A fancy, upright, vigorous grower. The kind you can depend on for big crops. Ripens about 2 weeks after Cabot. Late but extremely delicious. Fruit usually sells from 40c to 60c per pint; of course, higher since the boost in Food Prices.

No. 273. STANLEY—Mid-season. Plants tall, vigorous, with large, thick, shiny leaves and very productive. Fruit large, perfumed and most delicious. A variety that is most promising.

No. 274. JERSEY—Late. Tall, well shaped bushes; attractive appearance; excellent in production. The quality of this huge, grand fruit can very seldom be equaled. One of the best.

No. 278

HORSERADISH

BOHEMIAN HORSERADISH — Best of all Horseradish. Thrives in any garden soil. Valuable for relishes and appetizers. Grates up fine and tender. White as snow, and as strong as a lion. Set the roots straight up and down. Leave the top of the root about one inch below

the surface. Every garden should have horseradish, very profitable as a commercial crop. Crowns will make big roots in one year.

PRICES

August 15, 1949

Dear Sirs:

This is to inform you that I am more than satisfied with all the Nursery Stock I have ever purchased from you. The fruit trees I received are the largest and finest trees I have ever seen. Your Nursery Stock, Fair Dealings and Service could not be improved. I will always recommend your Nursery as tops.

Yours sincerely,
Harry Row
Cobden, Illinois

No. 445 HARDY OZARK (Egyptian Persimmon)

Sweet as honey; absolutely hardy; very ornamental. These are the sweet Native Persimmons and a thrifty, strong grower, coming into bearing early. Perfectly hardy in any section where the most hardy Peach can be grown. They make a compact, ornamental tree and will bear attractive, delicious fruit almost every year. Trees about 20 feet high when fully matured.

REDUCED PRICES, 4 to 5 Foot Trees, \$1.50 each.

No. 194 PAW PAW (Northern Banana)

A small, handsome tree with large purple flowers which are very beautiful and fragrant, and large, dark green foliage which makes it a handsome tree for the park or lawn. Produces large yellow fruit which has the flavor and shape of the banana and is very delicious and

attractive. Tree very hardy and productive. Can be grown in most sections of the United States. Should be planted in every lawn and garden.

Price—strong, healthy, well developed trees, 4 to 5 ft., \$1.25 each; 3 for \$3.30.

HARDY FRUITING MULBERRY TREES

No. 196. NEW AMERICAN—The most beautiful tree for ornamental planting. All summer it bears clusters of large, jet black, delicious berries, which are wonderful for eating fresh out of hand, and make the most excellent jams and jellies. Tree a very rapid grower, entirely hardy, and easily transplanted. Very attractive in any location; it makes a large, wide-spreading, graceful shade tree. Fruits continuously from May to August. For shade, beauty, attractiveness, and excellent fruit, plant the Mulberry tree. Price, large 4 to 5 ft. trees, each \$1.50.

DELICIOUS, TENDER ASPARAGUS

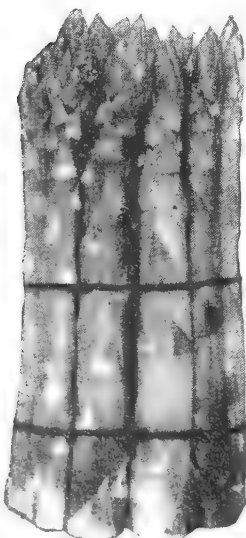

FRESH FROM YOUR OWN GARDEN

No. 276 New PARADISE

The New Giant Strain of asparagus. It will produce a crop one or two years sooner than will any other known variety today. Producing stalks of immense size and wonderful appearance. Is easy to grow, and once planted will last from 12 to 15 years with very little care. Paradise is the first asparagus to produce in the spring, and this crop is harvested early when you do not need to be bothered with other things on the farm.

Paradise asparagus offers you a great opportunity to make money. These fine large-rooted plants, produced from expensive pedigreed seed, enables you to buy the world's finest at a cost no higher than for common stock. Grown on special sandy soil, fertilized and dug with special machinery to get the whole root system, we offer you a premium plant at a reasonable cost. Paradise asparagus does not require any special care.

Prices: Giant 3 Year Old Paradise Plants That Will Produce Early. 12 for \$1.25; 25 for \$2.00; 100 for \$5.00; 1000 for \$40.00.

Hardy Ozark Persimmon

No. 520 ADAMS ELDERBERRY

For Wines and Jellies. Popular fruit for pies and homemade wines. Beautiful as an ornamental plant. The large berries and extra large fruit clusters of this new improved variety are far superior to the common varieties. Grows 5 to 6 feet tall. PRICE, BEARING SIZE BUSHES 69c EACH; 3 BUSHES, \$1.50; 12 BUSHES, \$5.50.

No. 522 RHUBARB

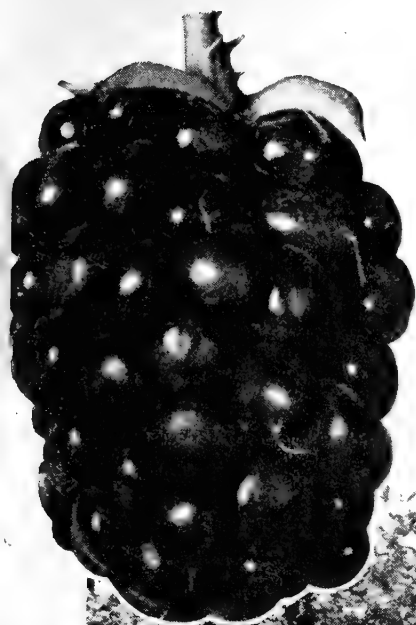

MCDONALD—A fine Rhubarb, Bright Cherry Red Color. Very long stems. Tremendously productive. Tender, rich spicy flavor; do not peel. McDonald is so tender peeling is not necessary. The huge bright red stems get 2 feet long and 1½ inches thick. It attracts special attention on the market.

Strong Divisions Ready to Bear. Each 40c; 3 for \$1.10; 10 for \$3.50.

No. 524 CANADA RED RHUBARB

—A brand new Rhubarb imported from Canada. Stems dark red clear to the heart and up in the leaf. Sauce made from our Canada Red will be as red as strawberry jam. Skin so tender it can be cooked with the stem. Grows to a giant size. Stock still limited. We offer divisions as it cannot be grown from seed. Each 55c; 3 for \$1.50; 10 for \$4.50.

New Everbearing Blackberry DESOTO

TEXAS FARM EDITOR visited Mr. T. S. Ehlert's farm while Mr. Ehlert was picking Blackberries from DeSoto Vines which he secured from us. Below is the Post Editor's photo of Mr. Ehlert and one DeSoto vine.

DeSoto Is Another Great Bradley Achievement

No. 232

Ripe Fruit for 4 Months—Often Bears Same Year Planted

DeSoto big thrifty robust plants begin bearing huge, delicious berries in July and continue until winter.

Berries enormous in size, often measuring more than 2 inches long. Glistening jet-black in color. Finest spicy flavor. Honey sweet. Has but few small seeds. No core.

Money Back Guarantee

Why wait two years for blackberries?

Our big, ready-to-bear **DeSoto** plants bear early after planting and continue all summer and fall.

The big, robust plants grow like weeds, will thrive in any kind of soil and bear enormous crops in most sections of the nation. Once planted will last for years.

Several years ago a customer of DeSoto, Illinois, told us of blackberries growing in his and his neighbor's gardens which were yielding a supply of huge, delicious berries for about four months every year. Upon investigation, we bought the plants and began a series of tests. **DeSoto** exceeded our "Rosiest Expectations." It not only bore all Summer and Fall, but the berries were much larger and more highly flavored than those produced on the original plants which had been growing in the same location for more than 15 years, during which time they received practically no cultivation. Despite the neglect, the fifteen-year-old plants were literally loaded with huge, delicious berries throughout the entire Summer and Fall. You can plant a few DeSoto plants in your back yard or along your garden fence and can serve the huge, delicious berries to your friends for more than four months each year. Remember this year Health Giving, Delicious Fruit is most important. Be sure to plant some DeSoto Blackberries. Order them early so you can plant early and get berries quickly.

PATTISON, July 22.—(Sp)—**PICKING BLACKBERRIES IN THE SUMMER** is a regular business for Theo. S. Ehlert of Pattison. With this new blackberry, the DeSoto, Mr. Ehlert will have berries for market until way up in September. This vine is four years old and the farmer has to have a stepladder to pick the berries from the top. Buds, blooms, green berries and ripe berries are on this vine right now.

—Photo by Post Farm Editor.

REDUCED DESOTO BLACKBERRY PRICES

DeSoto is becoming more popular and better known each year. **REDUCTION IN PRICES.** Big, Sturdy Plants, Each 50c, 3 for \$1.40, 6 for \$1.89, 12 for \$3.00, 25 for \$5.00. 50 or more Plants, 18c each.

"2 or More 10 Quart Buckets Full Every Other Day"

DeSoto, Illinois,

Carbondale, Illinois.
Dear Sirs:

Enclosed is an actual photograph showing an every other day's picking of your wonderful DeSoto Everbearing Blackberries from one row along my garden fence.

We keep them cut back to a height of not over four feet, causing them to spread into a table shape. We pick 2 or more 10 quart buckets full of berries every other day for about 74 days and seldom get a scratch.

The huge, sweet, juicy berries are very delicious when used fresh on the table, requiring but little sugar to sweeten them. They make highly colored, splendid tasting jellies and jams that retain their fresh fruit flavor. Also make the best cobbles and pies you ever tasted in your life.

We are very proud of our DeSoto Everbearing Blackberries and would not hesitate to recommend them to any of your customers, in fact, we consider the DeSoto Everbearing Blackberry the most profitable berry any one can grow. They require but little attention, are exceedingly productive, as well as extremely hardy, and we believe that with the proper cultivation and pruning, they will prove to be just as successful for all of your other customers as they have for us.

Yours very truly,
Mr. and Mrs. C. E. Woolf.

The New Hardy Boysenberry

FRUIT GIGANTIC IN SIZE

THE SENSATIONAL NEW BOYSENBERRY is a cross between the Loganberry, red raspberry and blackberry. Think of a berry that has a little of each of these fruits all in one gigantic, nearly seedless, beautiful wine-colored berry, with a very distinctive delicious flavor that you will never forget. They are sugary-sweet and juicy, yet firm enough to stand handling. No berry will compare with its delicious, enticing flavor when made into sparkling jelly, jam, marmalade or canned. For pies it cannot be excelled. Its beautiful sparkling juice may be made into a most delicious drink when mixed with four parts of water.

How to Grow Boysenberry

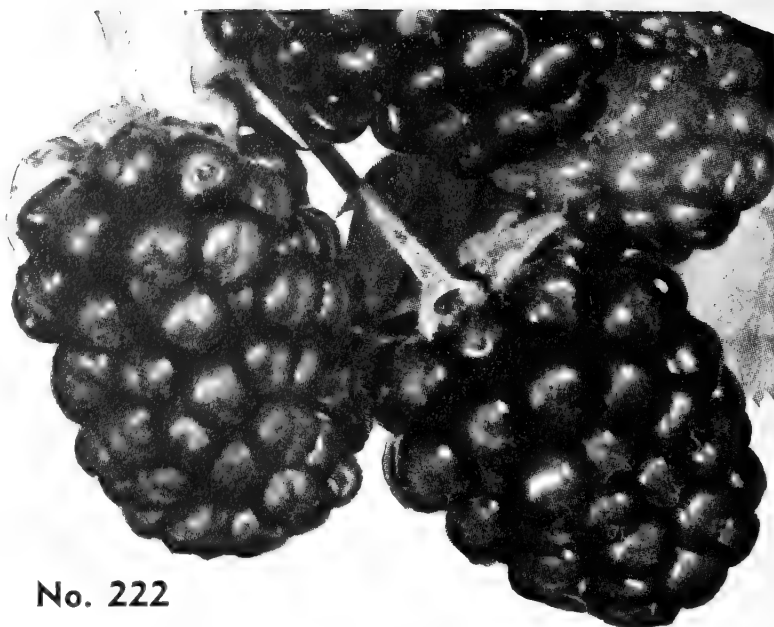

Prepare the soil in the same manner as you would your garden. Set plants 7 ft. apart each way, as heavy root system spreads out a considerable distance. The Boysenberry makes a very thrifty growth the first year, often 10 ft. Let the vine creep on the ground the first year. In the extreme North, cover the vines with straw or leaves just before hard freezes begin. This is just to be on the safe side. In the spring remove the covering, and when the vines commence to bud tie the vines to a trellis or wire stretched on post about 2½ feet from ground. Posts should be about 4 feet high, the second wire should be at top of post. Right after fruiting cut old vines down to ground. Then burn them, this throws all the strength into the new vines, which will produce the fruit crop the next year. Repeat this practice year after year. Follow these instructions and big crops of fruit are sure every year.

Bradley's New Thornless Boysenberry

Is absolutely free from thorns. SMOOTH AS A GRAPE VINE, can be handled with bare hands. This is a great advantage in cultivation and in placing the vines on a trellis, and, most of all, in picking the Huge, Delicious fruit. Once you grow the Thornless Boysenberry, you will never plant any other kind.

BLACKBERRIES

No. 224. EARLY MAMMOTH—The earliest gigantic blackberry in cultivation, ripening with raspberries. The gigantic long berries are meaty, sweet, mild, of exquisite flavor and surpassing in quality; rich in sugar and free from the bitter taste contained in many blackberries; firm and free from any hard core. Its early ripening, large size and fine appearance make it one of the most profitable commercial berries, sells on the market for top prices. Enormously productive, producing 400 cases of 24 pints per acre. Fruit holds its large size through the entire season. We stand behind this grand variety. **Pays up to \$500.00 per acre.**

No. 226. HOCO BLACKBERRY (Honey Coreless) One of the hardest and most profitable Blackberries on the market. It is an upright grower, the canes are stiff and abundantly able to hold up the enormous crop of fruit it yields. Berries are extra large; very productive; begins to ripen medium early and continues over a long period of time. Berries are of the finest flavor, sweet, juicy and coreless, hence its name. For a commercial variety we consider it the most profitable variety. Its productiveness, together with its fine shipping qualities, enables you to get the top market prices.

No. 230. ELDORADO—Berries large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking with quality unimpaired.

Hoco Blackberry

No. 228 Gardenia Thornless Dewberry

Here's something new and different—a genuine Dewberry—one that has retained all the rich and luscious flavor for which the old-fashioned Dewberry has long been famous—but Gardenia has no thorns; neither does it send out thorny shoots when it grows older, as some "thornless" varieties are apt to do.

It's vigorous, healthy and hardy, with the natural heavy-bearing habit of all Dewberries. Gardenia is a tried and tested variety of proven merit. We recommend it—you'll like it.

BIG STURDY, READY-TO-BEAR RASPBERRIES

PAY BIG PROFITS—Easy to grow, require but little attention, should be in home garden, full instruction will be with shipment. If you plant Bradley's strong ready-to-bear plants and follow our simple instructions, your success is assured. We offer only varieties which are guaranteed to succeed.

BLACK RASPBERRIES

No. 234. BLACK GIANT—A new black Raspberry, which has proven to be one of the hardiest Raspberries we have ever grown. We believe it will withstand the Winters, even in the extreme North, and can be grown in any section of the U.S.A. where any other Raspberry can be grown. This variety will thrive in almost any kind of good soil, and its deep growing root system enables it to withstand hot, dry seasons, which makes it an ideal variety for the extreme South, as well as the North. The big, jet black berries are firm, sweet, and have a most delicious flavor. Black Giant berries always bring top market prices.

We believe Black Giant yields more fruit to the bush than any other black Raspberry. Wherever you live, we recommend Black Giant above any other variety.

No. 236. CUMBERLAND—The old reliable standard black raspberry. Thrives everywhere. Berries unusually large, firm, jet black. Cumberland is the most extensively grown.

RED RASPBERRIES

No. 238. INDIAN SUMMER—The Giant New Everbearing Red Raspberry. Earliest to ripen in the spring, bearing another crop of berries in late summer and fall. The berries are long and deep red, small cavity, slightly irregular, rich in flavor. Surpasses all everbearing red raspberries. Plants are tall, heavy growers, hardy, heavy producers. Wonderful for home use and profitable for market; our favorite variety. If you are not more than pleased with Indian Summer Everbearing—your money will cheerfully be refunded. You take no risk in buying Indian Summer Raspberry plants.

No. 239. SUNRISE—Newest and Earliest. Ripens long before any other variety, and continues to fruit over a long period, adding many days to the Raspberry season. Color is bright, but turns dark red upon ripening. Berries are firm, fine textured, juicy and non-crumblly. Of excellent quality and flavor. Should be in every garden.

No. 240. FLAMING GIANT—Hardest red raspberry known to mankind, and the most delicious. A wonderful berry for the far north, and also succeeds in the far south. Fruit twice as large as most other red raspberries, of brilliant color, and deliciously rich in flavor. Ripens its enormous crop over a long season. Strong, sturdy grower with extra heavy upright canes; blossoms and fruit to the very tips. Has never been known to winter kill. Berries sell readily at a premium on the market—a profit getter—Flaming Giant is one of the best shippers, hold their shape without crumbling, and never turn dark. A delightful table berry and a perfect canner; when canned they retain their brilliant rich crimson color.

No. 242. GIANT LATHAM—Most popular of all red raspberries. The fruit is large, many an inch long, firm, and delicious in flavor whether eaten fresh or as preserves, jam or jelly. A strong, vigorous grower that bears enormous crops.

EVERBEARING STRAWBERRIES

Bear Delicious Fruit 60 Days from Planting

**Bradley's
Magic**

**Bradley's
Scarlet**

No. 262

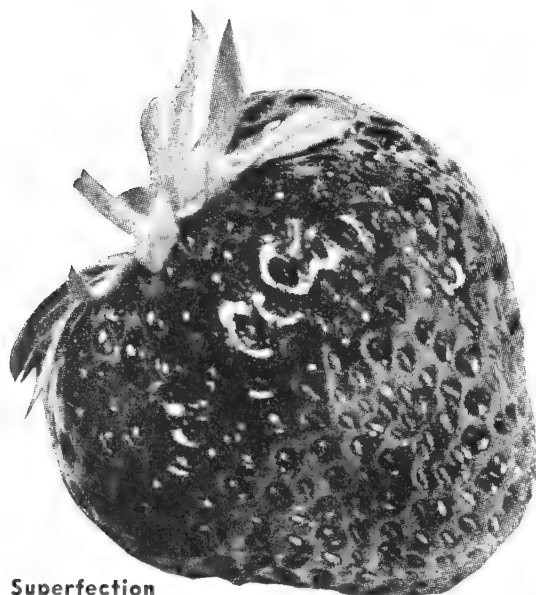

BRADLEY'S MAGIC

This fine variety will produce luscious, deep crimson, sweet Berries; we believe one of the highest quality Berries known to mankind. In our opinion, it is one of the best Everbearing varieties. The plants grow thrifty and usually within 60 days after plants are set in the Spring, they are loaded with large, attractive, delicious fruit until Winter. We believe you will agree that you have not tasted the finest Strawberry until you pick a few ripe Berries from your Magic Plants. The fruit is especially good in September and November. **Prices:** 25 for \$1.88, 50 for \$3.40, 100 for \$6.00, 500 for \$21.00, 1000 for \$37.00.

No. 260

BRADLEY'S SCARLET

In our opinion, this variety has been more widely planted than any other. We have furnished more than 30,000 Customers. Very few, if any, complaints. Berries usually begin bearing Gigantic, Sugary Sweet Berries within 60 days or less after planted and continue to bear until cold weather. Plants productive; healthy growers; excellent for withstanding hot, dry weather. **Prices:** 25 for \$1.88, 50 for \$3.40, 100 for \$6.00, 500 for \$21.00, 1000 for \$37.00.

SUPERFECTION

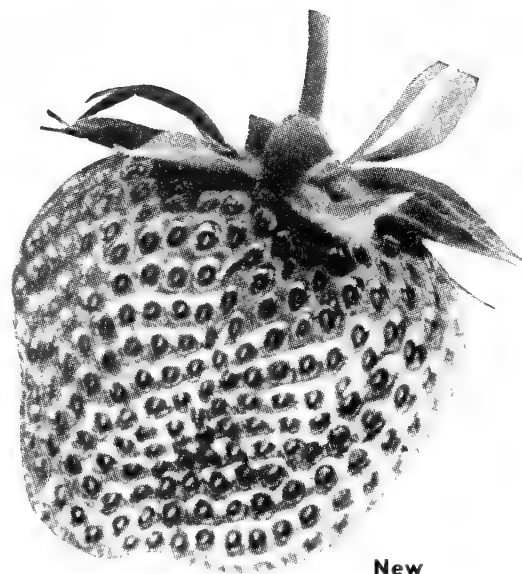

The New Everbearing Strawberry. This new find was originated in the North Central part of Michigan and threatens to take the place of many of the old standby everbearers. The plants are very sturdy, making adaptation on any soil without extra care. They are free plant makers, always a good picking row. The berries are large and round, red to the center, with a sweet, pleasing, mellow flavor. The berries are firm, no softening or discoloring, heavy producer of luscious berries. Delicious to eat from the hand, canned, preserved, or in jams and jellies, as well as fresh frozen. A crop in 60 to 90 days after planting and on until snow flies. Next year an early spring crop, and berries throughout the season. **Prices:** 25 for \$2.40, 50 for \$4.00, 100 for \$7.00, 500 for \$25.00, 1000 for \$40.00.

No. 265

NEW STREAMLINER

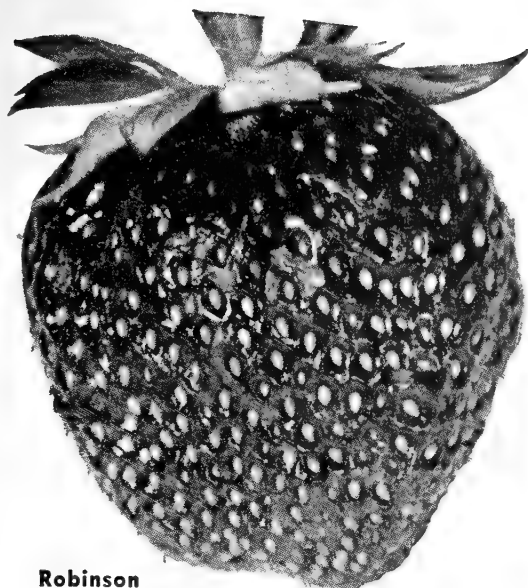

We consider it the best Strawberry today. Streamliner has been under our constant observation and after carefully checking on the variety since its origin, we feel safe in proclaiming it far superior to any other of the Everbearers introduced to date. Streamliner has a real Strawberry flavor; rich red in color throughout; excellent for eating fresh and highly recommended for canning or freezing. Its Spring crop compares favorably to almost any Spring Variety. Very productive and makes enough new plants for a fine Fall crop.

Plant this Spring; pick huge, delicious Berries this Summer and Fall. **Prices:** 25 for \$1.60, 50 for \$3.00, 100 for \$5.50, 500 for \$18.00, 1000 for \$30.00.

Robinson

Catskill

Bradley's Strawberry Plants are sure to grow and produce the finest fruit. We have selected only the very best varieties. All are Self Fruitful; none of our varieties require other varieties to make them fruit.

Daybreak

SPRING BEARING *Strawberries*

BIG, HEAVY YIELDING, SELECT PLANTS

No. 243. ROBINSON—The largest and best Berries. Extremely large, about 30 Berries fill a quart box. Color, rich cardinal red. Flavor, sweet and delicious. Excellent keeping qualities. Heavy yielder. Ripens a few days after Premier.

No. 246. DAYBREAK—A grand, new, extra-early variety, originated by the U. S. Dept. of Horticulture. It ripens about 10 days earlier than the best early varieties of strawberries; its bright glossy color, fine flavor and attractive appearance causes it to bring extra high prices. It is firm, holds up well in shipment and retains an attractive appearance several days after being picked. Plants are vigorous, very productive and thrive under almost any conditions.

No. 248. BLAKEMORE—Extra Early. Extra-early, bright-red berry favored for large-scale planting and long-distance shipping. Stands adverse weather conditions, drought, etc. Always bears a big crop of firm, flavorful fruit. Self-pollinizing.

No. 250. PREMIER—A valuable extra-early Strawberry. A large berry of uniform shape and size, excellent quality, rich color and highly resistant to frost. These qualities make Premier a profitable market variety.

No. 252. SENATOR DUNLAP—The old standby. A mid-season variety that grows on all types of soil and in all climates. A good producer and a fine berry.

No. 254. JEWELL—Here is a variety which has been tested in almost every section of the U.S. Has made a wonderful showing, berries are large, firm, highly flavored. Has a long fruiting season. Giant, delicious berries for several weeks. Plants vigorous, very productive.

No. 256. CATSKILL—(Midseason). An ideal Midseason berry—Because of its size, flavor, heavy yield, vigorous growth, and its adaptability to a wide range of soils and climates. Catskill berries are huge in size, deliciously flavored. Bright, glowing red in color. Each berry matures to uniform size and shape. Colors evenly, firm in flesh and skin, they withstand long shipping. We recommend Catskill to those who wish to grow large, fancy Strawberries.

No. 257. EXTRA LATE GIANT—Latest and most perfect June-bearing berry. Blooms freely and opens its buds late enough in the Spring to avoid late frosts. Crops are heavy and can be counted on. In the North it ripens in late June and early July, when other varieties are gone, hence it is in great demand. One of the most profitable commercial varieties, specially adapted to home use and canning, owing to its dark red color and most delicious flavor. Fruit is extremely large, firm and sweet. Thrives in all sections and is especially suitable for the central and northern states.

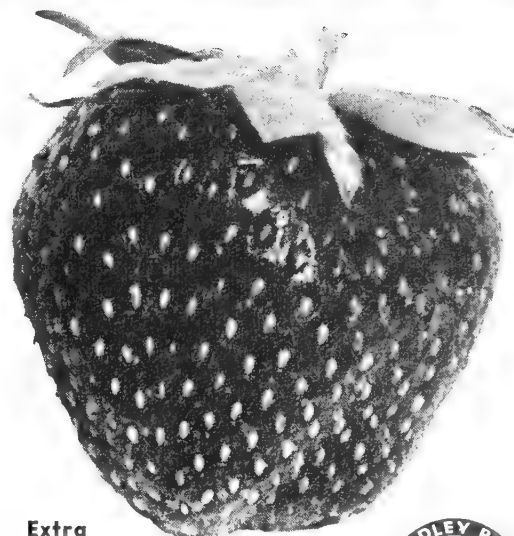

PRIZE STRAWBERRY GARDEN No. 12-A

This home garden Strawberry collection gives you three excellent regular varieties, covering a long bearing season, plus one of the best everbearers. Plant this spring and have berries from early spring until snow flies.

TREES *for Shade and Beauty*

Niobe Weeping Willow

No. 291 CUT LEAF WEEPING BIRCH

(Silver Birch)

This stately, white trunked weeping tree has delicate, threadlike branches that weep in long strings to the ground. One of America's most beautiful shade trees, it grows 20 to 30 feet tall. Its bark is gleaming white both Summer and Winter. One of the few Shade trees under which grass will make good growth. A single specimen or group adds distinction to a lawn. The white bark develops a year or two after the tree is planted. It is adapted for the New England conditions. 6 to 7 ft. trees, \$3.00 each.

Cut Leaf Weeping Birch

No. 290

NIOBE GOLDEN WEEPING WILLOW

Gracefully drooping branches and a golden colored bark make Niobe Golden Weeping Willow a most attractive tree in both winter and summer. The branches often droop to the ground and the golden bark is lovely to see the year around. Niobe is a rapid grower. Attractive when planted in a prominent place, as shown in the picture, and especially attractive near a lily pool or a rock garden. 4-5 ft. trees, \$1.50 Each; 5-6 ft. trees, \$2.00 Each.

Tulip Tree Blooms

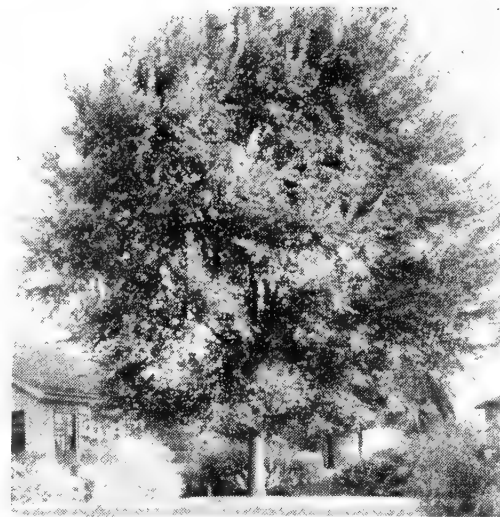

No. 292 TULIP TREE

(Liriodendron tulipifera)

One of the grandest of our native trees. It grows into a tall pyramid with broad, glossy, fiddle-shaped leaves of a clean, rather bluish gray shade, which in fall turns bright yellow. Beautiful, light orange-yellow, Tulip-like flowers, 1½ to 2 inches long, appear magically over the tree in May and June. 5 to 6 ft., heavy rooted trees, \$2.00 Each; 6 to 8 ft. trees, \$2.50 Each.

Pin Oak

Chinese Elm

No. 293

CHINESE ELM TREES

Because of its beauty and extremely rapid growth, the Chinese Elm has become the most popular shade tree. It is planted in every state, standing intense cold and extreme heat equally well. Under ordinary conditions, it makes excellent shade in 5 years. The tree pictured is nearly 40 feet tall and was planted just 7 years ago. Our trees were grown in wide rows. They are nicely branched, extra heavily rooted, the finest Chinese Elm we ever grew. They will please you and, what is more important, will make you fine shade in such a short time. There are hundreds of thousands of homes which would be so much more attractive and so much more comfortable if some of Bradley's fast-growing Chinese Elm trees were planted in the yard.

Large transplanted trees, heavily branched and heavily rooted. 5 to 6 ft. trees, \$1.50 each; Extra Select, 6 to 8 ft. trees, \$2.00 each.

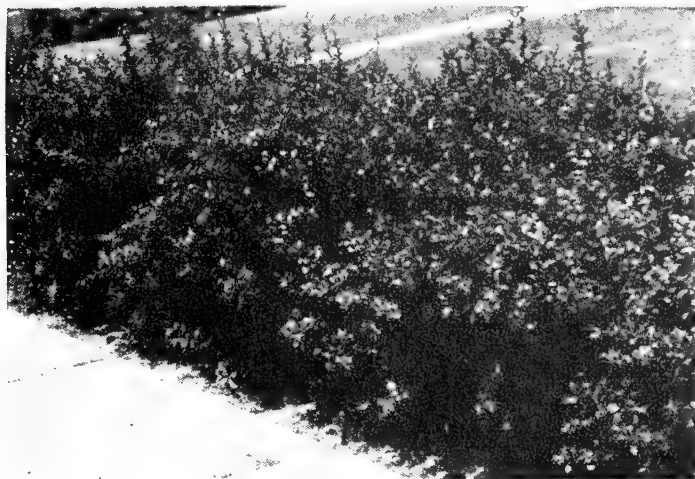

Dear People: Your Service and Nursery Stock is of the highest and could not be improved.—Dr. L. B. Boellner, Roswell, New Mexico.

No. 283

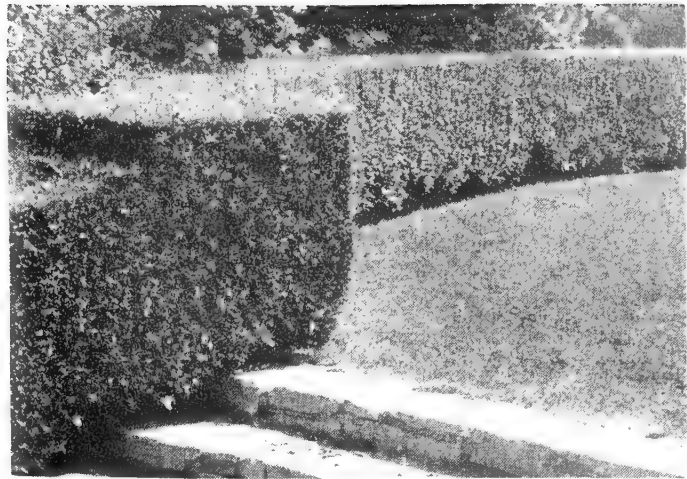

PIN OAK

Queen of All Shade trees. For an aristocratic, attractive shade tree, the Pin Oak cannot be surpassed. In the past this tree has sold at higher prices and, therefore, has not been in general use. It has also been suspected that the tree was a slow grower. This is, however, far from the true fact. The Pin Oak is one of the fastest growing of the Oak family. For street and lawn planting, it has no equal. The foliage is rich green, deeply cut, and colors to a glossy copper late in the Fall. It is not generally bothered by insects or disease, and adapts itself to all locations. At maturity it stands 30 to 40 feet. It grows in a symmetrical, pyramidal form. 5 to 6 Ft. Trees, \$2.98 Each; 6 to 8 Ft. Trees, \$3.50 Each.

Red-Leaved Barberry

Amoor River North Privet

Use **HARDY HEDGES** — For **PRIVACY, PROTECTION** and **DEFINITION OF PROPERTY**

No. 466 **GREEN BARBERRY**

A protective, as well as ornamental hedge; the small spines keep out cats, dogs and chickens. Perfectly hardy. Foliage colors beautifully in fall; red berries appear in fall, remaining far into winter. Prices: 2 Yr., 12-15 in., hedge-size plants, 40c each; 10 for \$3.75; 25 for \$8.75. 4-Yr., heavy-branched, 18-24 inch specimens, 50c each; 3 for \$1.35.

No. 468 **Bush HONEYSUCKLE HEDGING**

The hardiest and best shrub for high compact hedges or screening purposes. Upright, somewhat spreading branches; grows 8 to 10 feet tall. Flowers are borne freely in May and June; foliage is bright green. Showy red berries ripen in summer and remain many weeks. Fragrant blossoms attract humming birds and bees. Prices: 2-Yr., 18-24 inch plants, 40c each; 10 for \$3.50; 25 for \$7.50.

No. 470

BRIDAL WREATH SPIREA

Our most useful and popular flowering shrub, grows successfully anywhere. Plant in shrub border, tall foundation groups, corners and for screening hedges. Multitudes of small white flowers in clusters furnish a wall of beauty during June. Well-branched, well-rooted bushes.

Prices:	10	25	100
18-24 in.	\$3.00	\$6.00	\$18.00

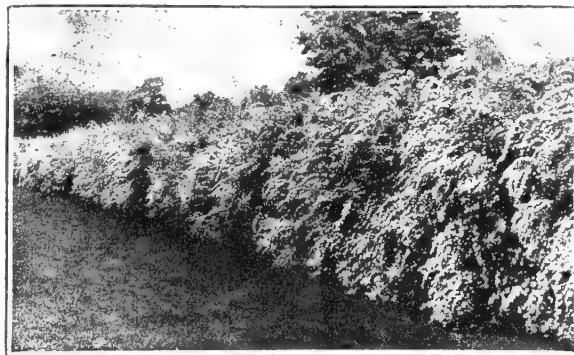

GROW YOUR OWN LIVING FENCE

A beautiful green wall that beautifies as it serves to make a barrier or a screen, at very small cost and no maintenance except to prune to desired shape and height. The hedge plants we offer are heavy, well-branched, field-grown plants which give an immediate effect, and should not be confused with small, spindling 2-year seedlings from beds.

No. 464

BRADLEY'S "True-Red" BARBERRY

There is nothing so strikingly brilliant in hardy shrubs as our genuine "True-Red" strain of Red-Leaf Barberry. Its abundance of thick, purplish maroon leaves glisten in the sun, contrasting with the green and yellow of other plants. Valuable as single specimens, groups or borders. Prices: 2-Yr., 12-15 in. Hedge-size plants, 60c each; 10 for \$5.50; 25 for \$12.25. 4-Yr., Heavy-branched 18-24 in. Specimens, 70c each; 3 for \$1.95.

Bridal Wreath Spirea

No. 472

AMoor RIVER NORTH PRIVET

(*Ligustrum Amurense*) The hardiest and healthiest Privet for cold climates. Thrives in all soils without special care; resistant to insect pests and not subject to blight. Glossy, dark green foliage appears early in spring and remains very late in the fall. Can be clipped any time in summer to desired height. Set plants 9 to 12 inches apart. 2-Yr., transplanted 18-24 inch, well-branched plants, 10 for \$2.80; 25 for \$5.60; 100 for \$20.00.

Bush Honeysuckle

HEMEROCALLIS — The New Hybrid **DAY LILIES**

STRONG, BLOOMING-SIZE PLANTS

Our new hybrids, far superior to the old-timers, have brought high words of praise from our patrons. They are all hardy, easy to grow, bloom freely **EVEN IN SHADE**, and last a lifetime. Plant 18 to 24 inches apart in ordinary garden soil, sunlight or shade, their crowns an inch or two below the top of the ground. Mulch through the first winter.

No. 474. RAJAH—Gorgeous new introduction by Dr. Stout; brilliant flame scarlet with a vivid triangular throat area of Brazil red. Large, beautifully shaped, brilliantly colored flowers of perfect form; very freely produced. Blooms July-August. Each 45c; 3 for \$1.20.

No. 476. AUGUST PIONEER—Late blooming Multiflora Hybrid. Produces a profusion of flowers from mid-August to mid-September. Miniature flowers of chrome-orange with outer half of petals flushed red. Very valuable for its late season of bloom. Each 45c; 3 for \$1.20.

No. 478. HYPERION—Exceptionally large 7-inch blooms of a soft canary-yellow. Fine form and substance; very fragrant. Considered the finest Hemerocallis. Blooms June-July. Each 60c; 3 for \$1.60.

No. 480. MIKADO—Large, 5-inch flowers of a rich orange with large spot of mahogany red on petals. Outstanding for its bold color contrasts and perfect form. Blooms during June and July. Each 45c; 3 for \$1.20.

RARE FLOWERING TREES

Flowering Crabs

THE MOST SPECTACULAR SMALL FLOWERING TREE USEFUL AND ORNAMENTAL FRUITS

The attractive flowers from these famous Crabs are, at this time, without question, the most noted and highest rated by all Landscape Men. This year we offer you only the two varieties with the most merits.

No. 302. HOPA—A gorgeous Tree which will reward you with loads of the most delightful Apple Blossoms. These blossoms will be followed with sparkling fruit; very delicious. If you do not wish to pick the fruit when ripe, it will hang on the tree all Winter. Grand for Birds.

No. 300. BECHTEL'S—Often called the PINK ROSE TREE. In the Spring, when the trees are covered completely with rich rose-like flowers, you are compelled to say it is the most beautiful tree you have ever seen. Trees are very graceful and seldom grow more than 12 feet in height. Trees extremely hardy and can be grown very successfully in all sections of the Country.

PRICES on HOPA AND BECHTEL'S Select, Well Branched 4 to 5 feet, Heavy Blooming Size, \$2.50 Each.

Bechtel's Flowering Crab

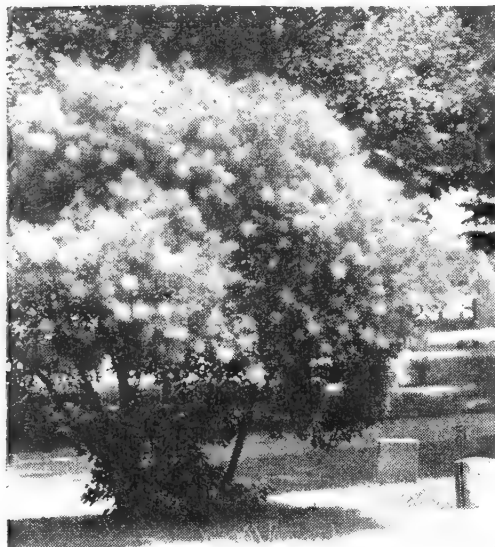

No. 314

TAMARIX, HISPIDA

By far the best Tamarix. Very dense, silvery-blue, feathery foliage. Bright pink flowers all summer. If not pruned will grow 10 to 15 feet tall, but it can be kept trimmed to a much lower height. Grows in sun or shade, in wet or dry places. One of our best shrubs. 2 year, 3-4 ft. Bushes, 98c each.

Tamarix, Hispida

Smoke Tree

Rose Tree of China

No. 296. PRUNUS TRILOBA—One of the most beautiful and showy of all small trees. It begins to bloom before the leaves appear in the spring, being literally covered with very double rose-like flowers. This symmetrically formed, graceful little tree grows usually to a height of but 6 feet and is attractive as a specimen or when planted in groups or shrub border. It is hardy and easy to grow, and no lawn is so small that room cannot be found for at least one of these wonderful, new small trees. Many who see them declare they are the most beautiful trees they have ever seen. The large, rose-like blossoms make fine cut flowers. **Select 3 to 4 ft. trees, \$2.00 each. Select blooming-age trees, \$2.40 each.**

SCARLET LEAF ROSE TREE OF CHINA

No. 298. PRUNUS BLIRIANA—This glorious Tree is very similar to the Number 296, PRUNUS TRILOBA, except its leaves are a brilliant scarlet. Late in the Spring the color of the tree changes to a deep, rich, attractive maroon. Its beautiful flowers and its bright, rich red fruit makes it most outstanding.

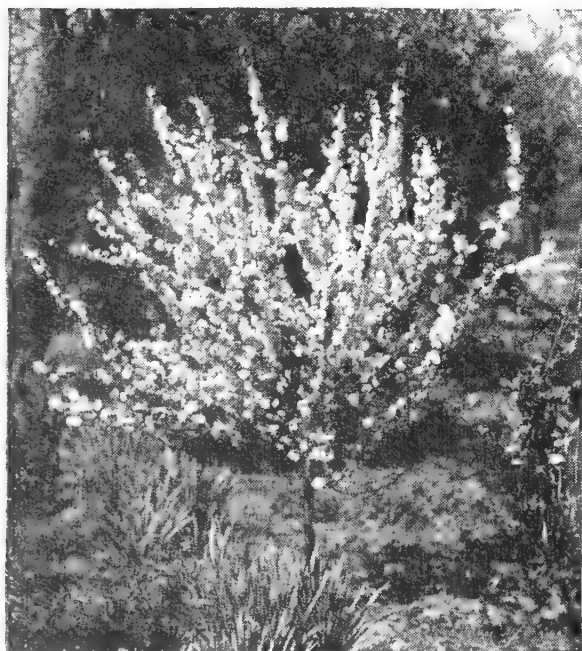

REDUCED PRICES: 3 to 4 foot Select Trees, \$2.00 each; Extra Large Blooming Age, \$2.75 each.

No. 299 Double Flowering KERRIA

Frequently called the Globe Flower, because of its ball-like shape. The blooms are very lovely, bright golden-yellow, double rose-like; produced in great abundance all summer. Attractive green corrugated leaves. Grow vigorously; attain a height of 3-4 ft. Plant in sunny location. Very choice! 2-yr., field-grown bushes. Each 75c; 2 for \$1.40.

No. 444 Purple Fringe Smoke Tree

This different, but most striking and graceful shrub was brought to the United States from the southern part of Europe. It is perfectly hardy and easily grown, but as yet it is comparatively unknown. Planted as a single specimen on the lawn, in the corner of the yard, or planted alongside the house, where it can be seen to advantage, it always excites comment. In late Summer and Fall it is entirely covered with a curious fringe of fine, purplish misty-looking flowers which give the bush a smoky appearance. Grows 10 to 12 feet tall and is surely a beauty. **Price, extra strong, 3-4 ft. bushes, \$1.80 each. 2 or more, \$1.70 each.**

Rose Tree of China

and SHRUBS OF GREAT BEAUTY

No. 286 RED FLOWERING Dogwood

(*Cornus Florida Rubra.*) This unique tree is rapidly becoming the most popular of the FANCY FLOWERING TREES. It is called the Aristocrat among the finest plantings in America. This small, uniform tree is literally covered with large, sparkling, rose-red flowers often measuring three to four inches in diameter before the leaves appear in the early spring. Its grayish-green foliage makes it attractive during Summer, and in early Autumn the foliage turns to a glistening rich crimson. Our select trees are propagated from buds taken from fine specimen trees which have the largest and most vivid colored blooms. The tree is extremely hardy and will thrive in most sections of the United States. Our trees will often bloom the same season planted. The Red Flowering Dogwood is conceded to be the most outstanding and the most distinct flowering tree in America. This year we are able to price this magnificent tree in reach of all. The following size trees are all large, branched, transplanted trees.

SELECT, WELL-BRANCHED SPECIMENS, 3 to 4 foot trees, \$3.50 each; two or more trees, \$3.25 each. EXTRA LARGE JUMBO SELECT SPECIMENS, 4 to 5 foot trees, \$5.00 each. 2 or more trees, \$4.50 each.

THIS IS A BARGAIN YOU CAN'T AFFORD TO PASS UP. ORDER ONE OR MORE COLLECTIONS TODAY.

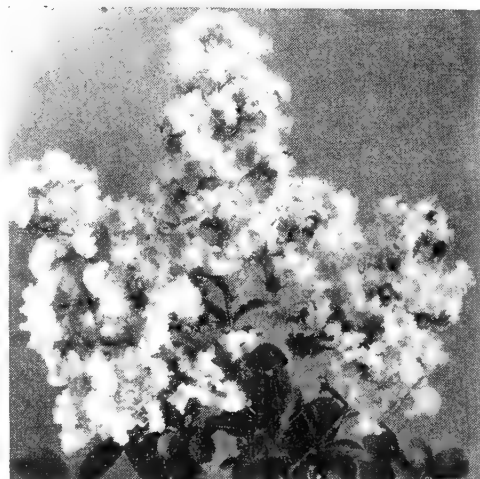

Firethorn

No. 287 FIRETHORN

(*Pyracantha coccinea* Lalandi)

Most attractive of all the fruiting evergreen shrubs. Bears attractive large trusses of white flowers during late spring, followed by an abundance of brilliant orange-scarlet berries which remain nearly all winter. Has a compact habit of growth, with bright green foliage lasting the year round. Plants can be trimmed to fit any position. We furnish only young stock which is readily transplanted. **Strong, 2-yr., bushes \$1.50 each. 3 or more, \$1.25 each.**

New Hardy

CRAPE MYRTLE

BLOOMS CONTINUOUSLY FROM MID-SUMMER TO FROST. IMMENSE, ATTRACTIVE, BRILLIANT FLOWERS FOR THREE MONTHS.

Crape Myrtle, the South's most beautiful Shrub, can now be grown successfully in the North. We have secured a strain which is much hardier. In the extreme Northern States, grow it just like Everblooming Roses, giving it Winter protection by mounding up dirt about 8 inches high before severely cold weather. In Spring, uncover. Like Roses, Crape Myrtle makes its blooms on new wood and if the tops are killed back to the ground, it will send up new tops in the Spring, which will be covered with huge blossoms from July to frost. **Select Ready To Bloom, 1½ to 2 ft. bushes, 75c each; Extra Heavy, Top Quality, 2 to 3 ft. bushes, 95c each. All colors same price.**

- No. 316A Hardy Watermelon Red
- No. 316B Hardy Apple Blossom Pink
- No. 316C Hardy Snow White
- No. 316D Hardy Lilac Purple
- No. 316E Hardy Dwarf Lavender-Blue

No. 285 JAPANESE SNOWBALL

An erect, compact shrub, blooming in June; completely covered with large balls of flowers that are snow-white. Foliage is dark green. We recommend this as the finest Snowball grown. Grows 6 to 7 feet tall. **Strong bushes, 2 to 3 ft., 90c each, 2 for \$1.65.**

No. 288

WHITE FLOWERING DOGWOOD

One of the most beautiful of all our native trees. Flowers are large, white and produced in clusters before leaves appear; the flowers are followed in the Fall by numerous red berries and Autumn color of foliage is quite brilliant. A fine specimen tree for lawn. Attractive when planted with Red Bud. **Select 3 to 4 ft., \$1.75 each; extra heavy 4 to 5 ft., \$2.50 each.**

WE CANNOT ACCEPT ORDERS FOR LESS THAN \$1.00

Japanese Snowball

Brilliant HARDY AZALEAS

**Hundreds of Blooms
The First Year**

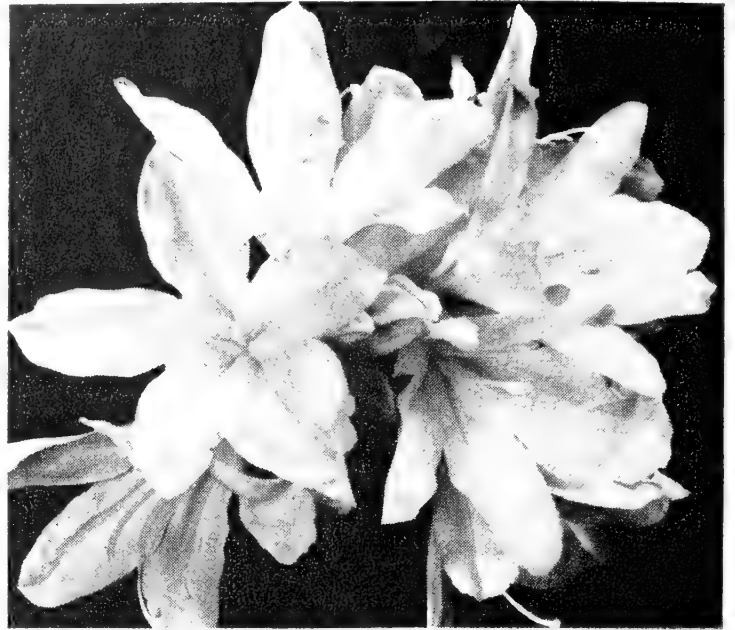

The following varieties when in bloom are one mass of color, varying in softness according to variety. Growing to a height of 3 to 4 feet, they make ideal subjects to intermingle under large trees, or in a border by themselves. Before dropping their leaves in the late fall, they offer a fine display of autumn coloring.

No. 500. ORANGE BEAUTY AZALEA—A matchless orange of aristocratic brilliance, which flowers in late May. Its thrilling, exciting, sweet honeysuckle fragrance will never be forgotten. Blooms freely and will enliven all companion plants. 4-year-old, \$3.00 each.

No. 502. ROYAL AZALEA—This Azalea has two outstanding qualities: fine fall coloring and large, delicate rose-pink flowers in late May or early June. The autumn foliage is a combination of crimson and gold. One of the easiest to grow. 4-year-old, \$3.00 each.

No. 504. WHITE AZALEA—Without a doubt the hardiest ever-green white Azalea in existence. A very free-flowering variety. A plant of vigorous, compact habit with attractive green foliage. 4-year-old, \$3.00 each.

No. 506. AZALEA SCARLET—America's most brilliant and most beautiful flowering shrub. Dwarf, very compact, grows 3 to 4 feet in height. In April and May it is completely covered with a mass of large, Brilliant Scarlet Flowers. In Autumn the foliage turns first to vivid scarlet, later to bronze; holds its foliage all winter. Select, 4-year-old Bushes which will be covered with a mass of blossoms this year soon after planted. Price, \$3.00 each.

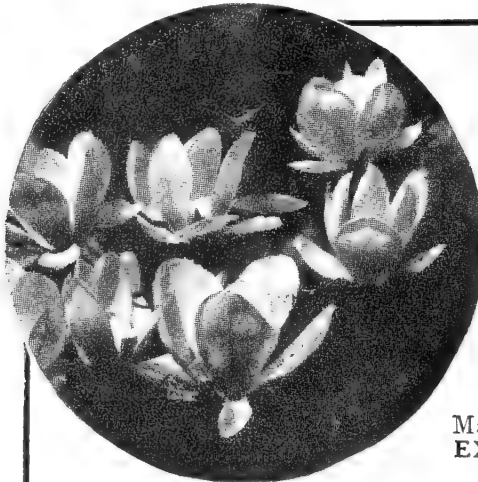

Royal Azalea

AZALEA OFFER No. 505

One each of all four varieties listed. \$11.00
4-Yr. old Bushes

Azalea Scarlet

Magnolia Soulangeana

Showy Magnolias

No. 340. SCARLET MAGNOLIA (*Magnolia Soulangeana Nigra*)—One of the hardiest and finest of all Magnolias. Can be grown successfully throughout North America. In midspring, before the leaves unfold, the great flurry of flower buds suddenly burst open, revealing enormous flowers composed of huge, waxy, scarlet petals. For several weeks, the magnificent display endures, then the trees assume a mantle of attractive, glossy, waxy foliage which lasts in good condition until late autumn. Scarlet Magnolia grows rapidly. Blooming size, \$2.50 each. EXTRA LARGE, \$3.75 Each.

No. 342. CHINESE MAGNOLIA (*Magnolia Soulangeana*)—This variety is very hardy and easy to grow. The tree is neatly rounded; grows to be from 10 to 15 feet high. Its sweeping branches almost touch the ground in early Spring before the leaves unfurl when covered with huge waxy flowers. Its waxy white petals are strongly tinted with purple and rose. This magnificent tree is found in the most expensive plantings. PRICE: Blooming size, \$2.50 Each. EXTRA LARGE, \$3.75 Each.

No. 294. NATIVE REDBUD OR JUDAS TREE—A small tree of refined type. Most desirable for planting in lawn or borders. The tree is a mass of bright red in early spring before leaves appear. Select 3 to 4 ft. trees, \$1.45 each; extra large, 4 to 5 ft. specimens, \$1.95 each.

No. 509

ROSALIA TREE

Its sensational mass of bloom is truly a "traffic stopper." Blood-red buds followed by a profusion of large, single, deep rose blossoms. Perfectly hardy. The crab-apple like fruit makes fine jelly.

PRICES

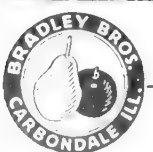

4 to 5 Ft. Trees \$1.50
Each, two for \$2.50.
5 to 6 Ft. Trees \$1.75
Each, two for \$3.00.

SHRUBS *That Add Charm and Beauty to Your Home*

Lilac, Hugo Koster

No. 311

AMERICAN CRANBERRY BUSH

(*Viburnum Americanum*)

Large, showy masses of white flowers in June, followed by brilliant red clusters of edible berries in late September. If not picked, berries remain on bush all winter. Heavy, 2 to 3 ft. bushes, 90c each; 2 for \$1.70.

No. 320 RED TARTARIAN HONEYSUCKLE

A rapid growing, hardy ornamental shrub, useful for many purposes. Stands shearing and can be trained to a very desirable, tall, spreading hedge or screen effect. Attains a height of eight to ten feet. Its grayish white wood is beautiful at all seasons of the year. Its glossy foliage, so thick a chicken can't get through it. Red flowers coming early in May are followed by a big crop of red berries that last until winter, it makes a paradise for birds. Grows with little or no care and lasts a lifetime. If you have a place in the shade where nothing else will grow, plant this shrub. Price, 2 to 3 ft., 79c each; 3 or more, 75c each.

No. 322. PINK TARTARIAN HONEYSUCKLE—Same as above except flowers are pink. Prices same as Red Tartarian.

Red Tartarian Honeysuckle

French Lilacs

These new improved French Lilacs rank among the finest of all Shrubs. They blossom YOUNG, generally the next year after planted. Blooms so freely; are so fragrant and the Special Varieties we have selected are of the most lovely colors.

ALL OF THE FOLLOWING FRENCH LILACS ARE SELECT GRAFTED BUSHES. REDUCED PRICES. YOUR CHOICE OF ANY OF THE VARIETIES \$1.15 EACH. One of Each Variety (Four Colors) \$4.00.

No. 301. PRES. CARNOT—Charming orchid pink. Very free bloomer. Has a rich alluring fragrance.

No. 306. HUGO KOSTER—Usually, blossoms are $\frac{7}{8}$ inch across. Purplish lilac in bud; Wedgewood-blue when fully open. One of the best.

No. 307. MARIE LEGRAYE—A beautiful variety which has loads of pure white blossoms. Very fragrant. Begins blooming very young, usually next year after planted.

No. 308. CONGO—Our most beautiful variety. Has huge trusses of a rich scarlet. Very brilliant. Usually attracts the admiration of the best known Flower Judges and Growers. No home complete without this variety.

3 Glorious New Everblooming Butterfly Bushes

(*Buddleia*)

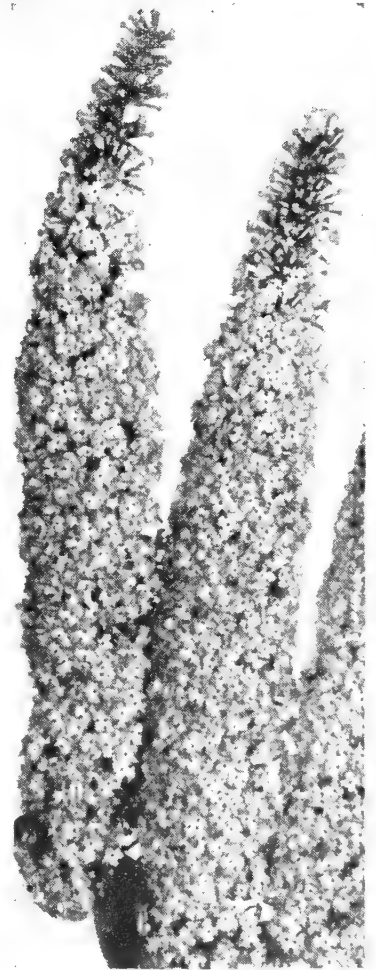

New Buddleias, each the finest of its color, and all blooming profusely and continuously from early summer to frost. No other shrub can compare with them for freedom of bloom. They make a compact bush, 4 feet or so tall. The roots are hardy, the tops die down in winter, then come up even more vigorously in the spring.

The lovely, fragrant flowers are beautiful in the garden and are fine for cutting.

No. 373. ROYAL RED (Patent No. 556)—By far the best red Buddleia. The color is a very rich, glowing ruby-red. The throat of each single flower is lighted with gold. There is no finer nor more attractive flower. **Each 90c.**

No. 375. EMPIRE BLUE (Patent No. 557)—The color is a charming aster-blue with a delicate lilac tone, the whole effect being an exquisite shade of blue. No other blue Buddleia can compare with this. **Each 90c.**

No. 377. SNOWBANK—This new white Buddleia produces fully round and compact sprays measuring 10 to 15 inches in length and carries an abundance of deep, dark green foliage. **90c Each.**

Royal Red Buddleia

A Gallant Array of the Most
Popular Shrubs in America
at Astonishingly Low Prices

All Shrubs on
This Page Are
Heavy 2-Year Blooming Size

No. 344. HYDRANGEA PANICULATA GRANDIFLORA—They are extensively used for yard, lawn and hedge planting and for screens. Attains a height of 5 to 7 feet; hardy in all localities; blooms the first year and every season in July and August. The flowers are massive, cone-shaped, often measuring 10 inches in length, and have a pleasing variation in color, changing from original pure white to pink, and finally to beautiful, rich, coppery-red. .75 each; 3 or more .70 each.

No. 346. CYDONIA—QUINCE. Japonica. Flowering Quince. Scarlet flowers early in spring followed by large, fragrant, quince-shaped, orange fruits. Foliage dark and shiny; growth bushy and dense; makes good pruned foreground. .55 each; 3 or more .50 each.

No. 348. HILLS OF SNOW OR EVERBLOOMING HYDRANGEA—This new Everblooming Hydrangea is, as its name implies, constantly in bloom from early in June until frost, and is one of the most important additions in the way of hardy shrubs ever introduced. All summer long it bears great clusters of hardy white flowers, much like the tender Hydrangea in size and form; it will grow to perfection in partial shade, making it most valuable for massing under trees or growing on north side of house. Hardy everywhere. Plant at least a half dozen plants. The effect is lovely. .80 each; 3 or more .75 each.

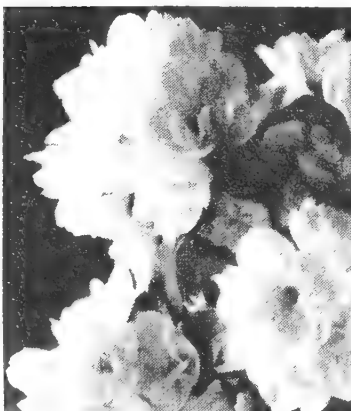

No. 350. NEW PHILADELPHUS ("Virginal")—One of the most beautiful, new ever-blooming varieties. It also makes wonderful individual specimen plants on the lawn. A vigorous, tall grower with very large, double-crested flowers with round petals. .70 each; 3 or more .65 each.

No. 352. VAN HOUTTE—Indispensable in any grouping of shrubbery where its gracefully arching, slender branches, fine twigs and "maidenhair" foliage may be left unpruned. A fountain of white in May. Heavy 2-3 feet, 30c each; 6 for \$1.60; 12 for \$3.00.

No. 353. ALMOND, Pink Flowering, Prunus glandulosa. Double pink. Very ornamental, limbs being covered with masses of flowers. April-May. 2-3 feet size .75 each; 3 or more .70 each.

Cydonia, Fl. Quince

New Philadelphus

No. 356. SPIREA, RED (Anthony Waterer)—Our finest low-growing flowering hedge. Grows only 2 to 3 feet tall without trimming, red blooms all season. Blooming size, .65 each; 3 or more .60 each.

No. 358. EVA RATHKE WEIGELA—Most distinct variety, being later (July) and most conspicuous with its deep carmine-red flowers. .65 each; 3 or more .60 each.

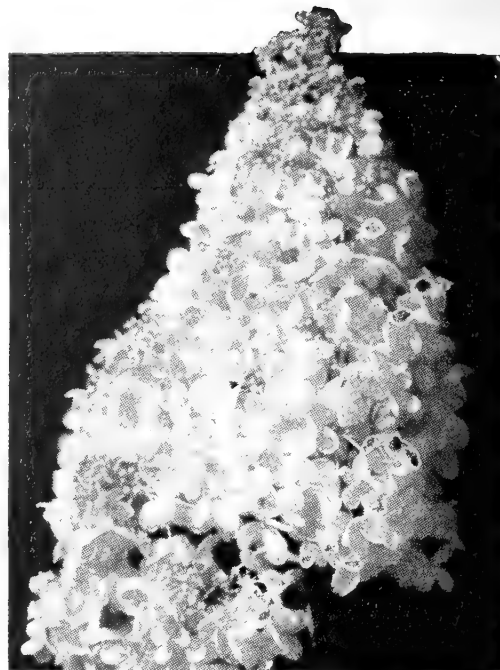

No. 360. ROSEA WEIGELA—One of the finest of the family, tall growing and vigorous, with deep pink flowers. They blossom in profusion in June and show some flowers throughout the season. .65 each; 3 or more .60 each.

No. 362. SUSPENSIA—Forsythia. Tall and spreading; lighting up the garden with glinting masses of yellow, flowers early in spring before the leaves appear. Of upright growth. .55 each; 3 or more .50 each.

Hardy Ornamental

CLIMBING VINES

True Bittersweet

Boston Ivy

Japan Honeysuckle

Clematis Jackmani

No. 378. BOSTON IVY (Amp. Veitchii)—This is the vine that imparts romance and beauty to clapboard cottage and stone mansion alike. It clings closely to any wall, wood, brick or stone, without support. The foliage colors beautifully in the fall. Prefers a north or east side. This is the clinging vine usually seen on buildings. Our heavy, 2-Year No. 1 plants are far superior to smaller plants. **Each 75c; 2 or more, 70c each.**

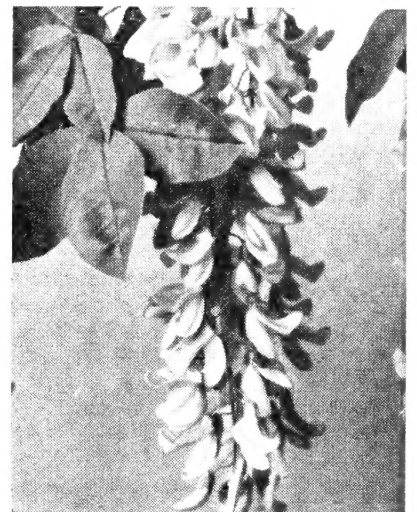

No. 382. TRUE BITTERSWEET—Its bright orange-red berries are so popular for winter bouquets. Plant 2 or 3 vines so they can cross-pollinize, thus producing many more berries. **Price, 2 year vines 98c each; 2 or more, 95c each.**

No. 381. SCARLET HONEYSUCKLE—Everblooming—A mass of beautiful scarlet blossoms all Summer and Fall. We know of no other hardy vine that will bloom so continuously over such long period of time. This vine can be used for covering porches, fences and trellises, or can be trimmed into a shrub. **Select, ready-to-bloom vines, 98c each; 2 or more, 90c each.**

No. 383. JAPAN HONEYSUCKLE (Everblooming)—Long a favorite; produces masses of lovely, fragrant flowers of white and yellow all Summer. Lovely foliage almost evergreen. Does well in sun or shade. Ideal for trellises or covering banks to prevent erosion. Fragrant, fascinating, delightful. **Select, ready-to-bloom vines, 48c each; 3 to 9 vines, 45c each; 10 or more, 40c each.**

WISTERIA

No. 511. PURPLE—One of the most popular and best loved of all the vines. Will climb conductor pipes, wires or limbs with strong grip and its heavy clusters of purple blooms look like giant clusters of purple Grapes hanging from it. Wood is so strong and vigorous that this vine can be trained into a small tree and while as a vine, it blooms in May and June, it will bloom two or three times during Summer when trained into tree form; grafted plants sure to bloom. **Each \$1.25, 2 for \$2.35.**

Purple Wisteria

CLEMATIS

The Spice of Garden Pleasure

No. 510. JACKMANI—One of the best and freest flowering varieties we know of. The flowers, when fully expanded, are from 4 to 6 inches in diameter. Intense violet-purple, with a rich velvety sheen, distinctly veined. July until frost. **\$1.25 each.**

No. 528 BEAUTY BUSH

(Kolkwitzia)

Really a BEAUTY SPECIMEN with gracefully arching branches—during the June bloom the branches droop under the weight of the lovely pink, bell-like flowers. The shrub grows to a height of about 8 feet, and reaches approximately the same spread. Extremely hardy. **PRICES: 2-year, blooming size, 85c each; 3 for \$2.25.**

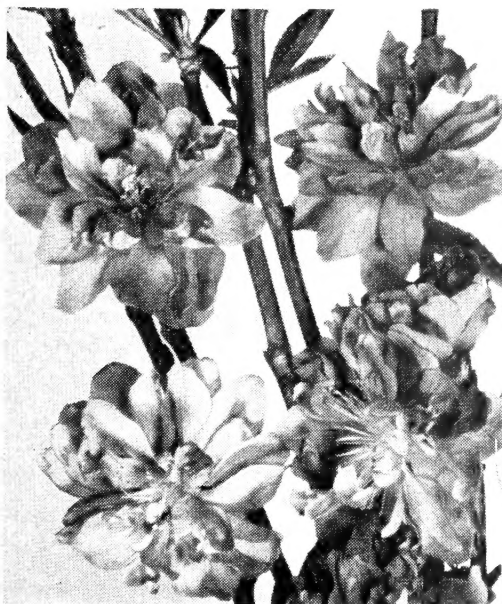

No. 530

RED FLOWERING PEACH

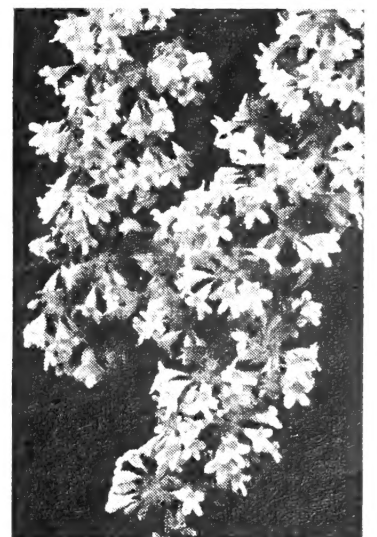

Symbol of Spring

(Earliest to Bloom in Spring)

Beautiful flowering trees used entirely as an ornamental. At their blooming time in May every twig and branch is brilliant with perfectly formed double, rose-red flowers. Truly a thing of beauty. Once seen, always admired. It is one of the most attractive of the low-growing, flat-topped trees, attains a height of about 15 feet at maturity. Flowers appear before the tree leafs out in spring. Due to the extreme hardiness of the wood, the tree is usually very late in leafing out. **PRICES: Well branched, blooming-size trees, \$1.50 each; 2 for \$2.75.**

10 for \$3.89

No. 411. AFRICA—Brilliant carmine-red with blood-red eye. Well shaped flower heads composed of large compact florets. Good strong stems.

No. 413. MISS LINGARD—Early June to October with large heads of white flowers with faint pink shading in center. It is the best early white Phlox known. Free from disease.

No. 415. PROGRESS—Superb light blue, set off with deeper purple blue eyes. Extremely large flower heads with 1½ to 2 inch florets. Rich, dark green foliage.

No. 418. FLASH—Seldom has one seen such a shade of red. Its brilliant scarlet blooms seem to glow with fire. Of splendid habit, about 3 feet high, with full, rich heads; blooms early. The best red Phlox in existence.

No. 421. CHEERFULNESS—Vigorous grower with much branched panicles of sparkling salmon-orange flowers. Keeps perfectly in bright sunlight.

No. 423. PINKETTE—The large florets are soft, delicate pink. This unusual coloring is heightened by the fact that the little narrow tubes which fasten the florets to the stem are clear deep pink.

No. 508 TUBEROSES

An Unusual Value
NEW MEXICAN

This charming, pure white Tuberoses begins to flower in July and continues throughout the season, each bulb throwing from 2 to 5 flower spikes in succession. Delightfully fragrant. Store the bulbs just like Gladioli over winter.

12 BULBS FOR \$1.25

CUSHION MUMS

Sometimes called "Million Mums." A group of low growing Chrysanthemums, forming mounds of blooms, reminding one of the old-fashioned Azalea. The plants grow about 10 to 12 inches high. Our stock is of improved strains. Most varieties begin blooming late in August and bloom until frost.

No. 452. CUSHION BRONZE—As the flowers first open, they are a warm, rich red bronze, then turning to a bronzy yellow with a light red center. Later lighten to a beautiful golden bronze shade. 50c each.

No. 454. CUSHION PINK—Flowers open to a deep, orchid-pink, then change to a light orchid with a creamy center, finally salmon-pink with a soft yellow center. 50c each.

No. 456. CUSHION RED SUPER DELUXE—Plant is perfectly formed and makes a mound 18 inches high with a diameter of 3 feet in its very first year. Bright shade of red. Mid-September. 50c each.

No. 458. CUSHION WHITE—Lovely snow-white flowers with a faint yellow center. 50c each.

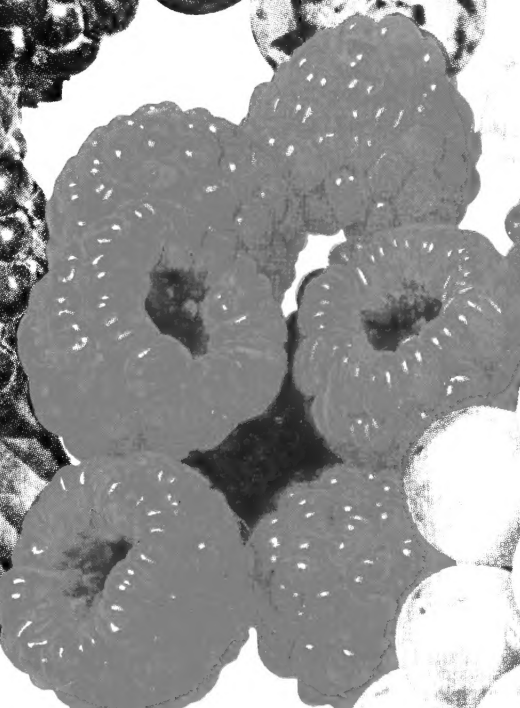

No. 460. CUSHION YELLOW—Pure golden yellow, very brilliant. Develops into large, dense clumps, often measuring 24 to 30 inches across. Early October. 50c each.
